Deliberations:

Governing Biodiversity through Democratic Deliberation Mikko Rask, Richard Worthington, 2015-05-15 This book discusses political controversies involved in global biodiversity policy and the practical opportunities that are opened up in solving them through increased citizen participation and democratic deliberation It examines the emerging practice of deliberative global governance and its political consequences The collection focuses on the intersection of global biodiversity policy and the promise of deliberative democracy In doing so it examines how new discursive logics emerge in global citizen deliberation that might destabilize the impasses encountered in biodiversity negotiations how a global citizens voice emerges in deliberative processes despite the dominance of national institutions in the lives of those citizens the most effective and innovative ways to amplify the results of large scale deliberations to policy makers and broader audiences and how future citizen deliberations can be designed to make them fair feasible and consequential processes in general and for biodiversity issues in particular This highly original contribution to the field provides theoretical discussions empirical analyses and local experiences of biodiversity policy making it an invaluable resource for students and scholars of environmental politics governance and sociology particularly those interested in deliberative democracy citizen participation and biodiversity

Ethical Deliberation in Multiprofessional Health Care Teams Hubert Doucet, Jean-Marc Larouche, Kenneth R. Melchin, 2001-06-26 This study analyzes both pragmatic and theoretical perspectives of ethical deliberation as well as the professional and philosophical backgrounds for the ethical deliberation of social workers nurses and doctors working in the field of chronic illness In doing so this volume expands the scope of current research through an analysis of the process and its dynamics Published in English [Intercultural Deliberation and the Politics of Minority Rights](#) R.E.

Lowe-Walker, 2018-01-15 Achieving socio political cohesion in a community with significant ethnic cultural and religious diversity is a difficult challenge in contemporary liberal democracies In the quest for neutrality public policies and institutions shaped by the needs of the majority can inadvertently marginalize minority interests Minority groups must therefore translate their desire for cultural recognition into terms that ironically often minimize cultural difference Intercultural Deliberation and the Politics of Minority Rights examines the relationship between this minority rights paradox and cultural difference building a compelling case for an inclusive approach to navigating minority rights claims R E Lowe Walker s intercultural deliberation is designed to mitigate the injustices imposed by majority norms Instead of asking what the liberal state can tolerate she asks how our understanding of difference affects our interpretation of minority claims shifting the focus from how to limit difference toward inclusive deliberations This important work thus serves as a measure of social justice and a vehicle for social change **North Carolina Reports** North Carolina.
