and Middle Eastern brands that translate their English logotypes into Arabic Common products found in the Lebanese  
market which include both the English and the Arabic logotypes are snack foods This inclusion of both logotypes is referred  
to as duality Snack food brands take two distinct approaches in translating their logotypes Some brands attempt to create an  
Arabic logotype translation that is equivalent Al Agha to be original English logotype while others brands create a non  
equivalent Al Agha logo design A collection of logos was selected for the following study All of the logos are divided based  
upon equivalence or non equivalence Six of the brands are Western including Polo 7up Cheetos Mentos Hershey s and Bugles  
Four of the brands are Middle Eastern including Temmy s Fizz Mixy and Jaz Two fictional control brands were also  
introduced to the study named Zing and Pop The following thesis combines two different methodological approaches First a  
qualitative textual analysis examines the logotypes on both a micro and macro level Second a quantitative study was done on  
a Lebanese population of snack food purchasers through the distribution of 80 questionnaires at supermarkets and stores  
The aim of the study was to test the Lebanese perception of snack food brands based upon their logotypes equivalence non  
equivalence and duality It was hypothesized that equivalence would not be a factor to the Lebanese population and that  
duality would be However the findings conclude that some segments of the Lebanese population consider equivalence
