Macbeth's castle Near Duncan's room

Enter LADY MACBETH

LADY MACBETH That which hath made them drunk, hath made me bold;
What hath quenched them, hath given me fire.

It was the owl that shrieked, the fatal bellman
Which gives the stern'st good-night. He is about it.
The doors are open, and the surfeited grooms
Do mock their charge with snores. I have drugged their

That death and nature do contend about them,
Whether they live, or die.

Angels in America at the British National Theatre Emily Garside, 2022-10-28 Angels in America was one of the most significant pieces of American theatre in the 20th Century Much has been written on Tony Kushner s epic drama However the National Theatre of Great Britain s productions of the show are relatively under discussed Not only was the National Theatre responsible for helping to originate the play in the early 1990s but it helped revitalize interest in 2018 with Marianne Elliott s reimaged version starring Andrew Garfield and Nathan Lane This book considers the role of the National in the play s history and how Elliott s production reframed the play 25 years after the original it chronicles the tumultuous first production and the play s successes in London and New York The book also looks at the key features of the play its representation of AIDS its status as an iconic gay play and its searing political commentary Concluding with an in depth analysis of Marianne Elliott s reimaging of the play this book is an up to date history of Angels in America and a reflection on its continued importance

Masculinity and Western Musical Practice Kirsten Gibson, 2017-07-05 How have men used art music How have they listened to and brandished the musical forms of the Western classical tradition and how has music intervened in their identity formations This collection of essays addresses these questions by examining some of the ways in which men music and masculinity have been implicated with each other since the Middle Ages Feminist musicologies have already dealt extensively with music and gender from the phallogocentric tendencies of the Western tradition to the explicit marginalization of women from that tradition This book builds on that work by turning feminist critical approaches towards the production rhetorical engagement and subversion of masculinities in twelve different musical case studies In other disciplines within the arts and humanities men s studies is a well established field Musicology has only recently begun to address critically music s engagement with masculinity and as a result has sometimes thereby failed to recognize its own discursive misogyny This book does not seek to cover the field

comprehensively but rather to explore in detail some of the ways in which musical practices do the cultural work of masculinity The book is structured into three thematic sections effeminate and virile musics and masculinities national masculinities national musics and identities voices discourses Within these themes the book ranges across a number of specific topics late medieval masculinities early modern discourses of music masculinity and medicine Renaissance Italian masculinities eighteenth nineteenth and early twentieth century ideas of creativity gender and canonicity masculinity imperialist and nationalist ideologies in the nineteenth century and constructions of the masculine voice in late nineteenth and twentieth century opera and song While the case studies are methodologically disparate and located in different historical and geographical locations they all share a common conc
