## Cash App Prices:

Records and Briefs of the United States Supreme Court, 1832

**The Price of Mercy** Emily Galvin Almanza, 2026-02-17

A former public defender takes us behind the closed doors of America's criminal courts revealing how the institutions that claim to protect us are doing the exact opposite and offering a blueprint for finally fixing it. A searing, compassionate and utterly necessary book that pulls back the curtain with the clarity of a lawyer and the heart of someone who's seen the criminal legal system's devastating consequences up close. Michelle Alexander, author of *The New Jim Crow*. As Americans we are told a rose-tinted story about our criminal courts that these are the hallowed halls of justice that the purpose of our legal process is to find the truth and that those who enforce the law are both equitable and heroic. But what if the reality is purposefully obscured to hide something rotten at the system's core? In *The Price of Mercy*, attorney and former public defender Emily Galvin Almanza weaves hard data and unforgettable stories, dark humor and compelling evidence to tell us the truth about what's really going on behind the closed doors of America's criminal courts. She shows us how jails actually increase future crime, the dirty tricks police use to make millions in overtime pay, how a man could spend decades in prison because scientists mistook dog hair for his own, the perverse incentives that push prosecutors to seek convictions even when they themselves don't want to, and how judges may decide cases differently after lunch. We'll learn what's working, too, how public defenders can improve public health and even economic mobility, and how planting more trees can reduce a neighborhood's murder rates. But a lone defender winning a case won't change the system. Galvin Almanza argues that we need an engaged public to confront the stark reality of our crime-generating poverty-entrenching health-destroying legal apparatus and rebuild it into something that can save our collective present and prevent our future from being torn apart. Provocative and eye-opening, *The Price of Mercy* lifts the curtain on the way our laws really operate and presents a path forward for true transformation of the American criminal court system. Justice and the law itself is not some static thing. It is something enacted together, decision by decision, in acts of inhumanity or mercy.

*The Five-Year Stellar Stock Index and The Yield On Cost Gold Mine* Stephen Fleckenstein, 2025-08-15. This is not a story book. This book is an instructional manual based on financial research. Sorry, but it's all about the numbers. To appreciate the powerful investment approach that the FYSSI supports, you will have to understand the numbers. Just simple adding, subtracting, multiplying, and dividing decimal points and percentages. This is not a get-rich-quick scheme. If you can grasp the measure and the magnitude of how your investments, big or small, can grow and how money can make money, you will perhaps feel much better about your monetary future. The intent is to provide a list of stocks that illustrate excellent investment choices. The Five-Year Stellar Stock Index (FYSSI), pronounced Fizzy, can help you achieve a far better return than the average annual return you can get with an S&P 500 index fund.
