Command words (Science)

Command words are the words and phrases used in exams that tell students how they should answer a question.

The following command words are taken from Ofqual's official list of command words and their meanings that are relevant to this subject. In addition, where necessary, we have included our own command words and their meanings to complement Ofqual's list.

Command words marked * are new for teaching from 2016.

Calculate
Students should use numbers given in the question to work out the answer.

Choose*
Select from a range of alternatives.

Compare
This requires the student to describe the similarities and/or differences between things, not just write about one.

Complete
Answers should be written in the space provided, for example on a diagram, in spaces in a sentence, or in a table.

Define*
Specify the meaning of something.

Describe
Students may be asked to recall some facts, events or process in an accurate way.

Design*
Set out how something will be done.

Determine*
Use given data or information to obtain and answer.

Draw
To produce, or add to, a diagram.

Estimate
Assign an approximate value.
