Blurred Boundaries Jessica Edens McCrary, Lynée Lewis Gaillet, 2026-04-02. How the COVID-19 pandemic revealed gendered inequities in academic labor and how to overcome them. Although the COVID-19 pandemic that began in 2020 proved universally challenging, women especially found themselves caught between professional and familial responsibilities as work and homelife boundaries converged and collapsed. These gendered workplace struggles were not unique to the pandemic but rather were exacerbated and exposed by the public health response. In *Blurred Boundaries: Feminist Essays on Twenty-First Century Academic Labor*, scholars, teachers, and administrators pair eyewitness narratives with sustained interrogation of interminable labor inequities to demonstrate the ongoing dilemmas posed by gendered social and professional expectations. Contributors grounded in rhetoric and composition scholarship and feminist methodologies highlight systemic labor issues and suggest solutions to these embedded ongoing problems. They pose critical questions regarding institutions' responsibilities for engaging intentional decision-making practices both to disrupt recurrent work imbalances and support sustainable, ethically managed academic labor practices. Educator Reflection Tips Jami Fowler-White, Educators spend an abundance of time planning and preparing lessons, but how often do we as educators stop to think about and analyze the overall outcomes of our lessons: retention of knowledge, the appropriateness of the strategies, learner engagement, etc. The *Educator Reflection Tips* series provokes in-depth analysis of your everyday instructional practices, provides insights into what research says should be included within all aspects of instruction, poses reflection questions to help readers determine the effectiveness of the educational approaches used, and Fowler-White has even included tools to use as you craft a plan to adopt, adapt, or enhance your current practices. The distinctive format of the first volume in this series enables readers to choose their own path to attain knowledge. Unlike other educational books, each Reflection Tip is written independently from the others, so there is no need to read the text cover to cover, as is the traditional method of content written for educators. The three distinct clusters found within this volume include: 1. Content-driven Concepts, which focuses on the instructional core and content-specific knowledge; 2. Classroom Competencies, that outline instructional strategies educators can incorporate.

into their practice 3 Classroom Culture which provides guidance for developing relationships and meeting the diverse needs of students Additionally you will find the E M P O W E R Feedback Framework which the author created to outline the steps educators should take to help students take ownership of their learning and a Summertime S L I D E Toolkit to help combat learning loss It s everything you need to elevate your instructional practice Come reflect with me *Free Money Investing Strategies: Step by Step Start Up Guide for Beginners + Market Crash Survival Guide 101* Mandi Ward,2020-04-24
