Pound, 2006-05-02 The International Baccalaureate IB is a respected qualification gaining increasing currency around the world and which has been adopted by a wide variety of schools both public and private In the UK growing dissatisfaction with the A level system has led to an intense debate about alternative qualifications and in many schools IB courses have been introduced alongside conventional A level courses This practical introduction to the IB takes a balanced look at the pros and cons and features a wealth of advice from those actually involved in teaching and implementing it in schools Providing comparative material on how IB courses differ from A levels and a subject by subject account of best practice in teaching the IB this book offers a rich source of practical advice for teachers school leaders or managers involved in teaching or implementing the IB programmes **Teaching Fundamental Concepts of Informatics** Juraj Hromkovič, Rastislav

Královic, Jan Vahrenhold, 2009-12-02 The International Conference on Informatics in Secondary Schools Evolution and Perspective ISSEP is an emerging forum for researchers and practitioners in the area of computer science education with a focus on secondary schools The ISSEP series started in 2005 in Klagenfurt and continued in 2006 in Vilnius and in 2008 in Torun The 4th ISSEP took part in Zurich This volume presents 4 of the 5 invited talks and 14 regular contributions chosen from 32 submissions to ISSEP 2010 The ISSEP conference series is devoted to all aspects of computer science teaching In the preface of the proceedings of ISSEP 2006 Roland Mittermeir wrote ISSEP aims at educating informatics proper by showing the beauty of the discipline hoping to create interest in a later professional career in computing and it will give answers different from the opinion of those who used to familiarize pupils with the basics of ICT in order to achieve computer

lit acy for the young generation This is an important message at this time when several countries have reduced teaching informatics to educating about current software packages that change from year to year The goal of ISSEP is to support teaching of the basic concepts and methods of informatics thereby making it a subject in secondary schools that is comparable in depth and requirements with mathematics or natural sciences As we tried to present in our book *Algorithmic Adventures* [IJER Vol 25-N3](#) International Journal of Educational Reform, 2016-12-20 The mission of the International Journal of Educational Reform IJER is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities As the only peer reviewed scholarly publication that combines authors voices without regard for the political affiliations perspectives or research methodologies IJER provides readers with a balanced view of all sides of the political and educational mainstream To this end IJER includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy administration curriculum instruction law and research IJER should thus be of interest to professional educators with decision making roles and policymakers at all levels turn since it provides a broad based conversation between and among policymakers practitioners and academicians about reform goals objectives and methods for success throughout the world Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes Finally it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U S and the world
