Understanding and Managing Socioeconomic Systems Behaviour Rossen Kazakov, Penka Petrova, Yavora Kazakova, 2024-05-23 This book illustrates effective decision making in complex socio economic systems utilising system dynamics and agent based simulation modelling approaches It provides practical guidance on the application of conceptual and numerical modelling and simulation for analysing economic strategic regulatory sociological and ethical questions from a complex systems perspective Its theoretical methodological and practical illustrations will enhance readers understanding of the application of simulation modelling for effective systems management By virtually experimenting with alternative management scenarios it will help them improve decision making and control mechanisms The book explores practical examples from the fields of pharmaceuticals healthcare finance sociology education and culture from a strategic regulatory and ethics perspective As such it offers a valuable resource for managers both at for profit corporations and non profit organisations public policymakers and regulators alike

Next Generation Technology-Enhanced Assessment John C. Scott, Dave Bartram, Douglas H. Reynolds, 2017-12-28 The use of technology for workplace and occupational testing blossomed in the early years of this century This book offers a demonstration that the first generation of these technologies have now been implemented long enough to observe the patterns and issues that emerge when these approaches evolve through technical advancement and successive application A new set of issues and opportunities has emerged and the next generation of these applications is now coming of age This book reflects on the last few decades of this evolutionary process from a vantage point of global experience across a wide range of workplace applications including employment selection development and occupational certification The themes and issues that arise as this broad treatment unfolds provide an essential foundation for students researchers and professionals who are involved with the assessment of human capability and potential in organizational and workplace contexts

Teaching Adult Learners Jessica A. Curtis, 2019-06-12 As adult instruction becomes a more common part of library practice librarians need guidance in an area that may not always have been a part of their library science education This book provides the instruction necessary to instruct adult patrons Presenting complex concepts and ideas in an easy to understand format this book applies learning theory to real life situations and provides a much needed resource for those responsible for or seeking to instruct adults in library settings The book introduces learning principles and techniques that will enhance your classes programs and one on one interactions as well as increase the memory retention of participants It will help you not only to promote learning but also to create positive library interactions and build retention Current library instructional and theoretical texts address instructional programming but do not explain how the instructor handles learning instruction differently for individuals general audiences and specific audiences or in passive situations such as through handouts or online interactions This guide differs from other works in that it addresses all adult services positions not only those with the title of instructional librarian and addresses the full scope of
