result you'll lose referrals and other opportunities. Freedom: The difference between freedom for many business owners is a 1st place Google ranking. When you're first on Google, you don't need to prospect for new customers. By dominating your industry, you can easily create time freedom. It's not the best business owner that gets freedom; it's the business owner that's first on Google. I could list more reasons why your business needs to be 1st on Google Maps, but to be honest, I don't want to disrespect your intelligence. If you didn't know you need to be 1st on Google Maps, you wouldn't be reading this. In this book, I've laid out 8 easy-to-follow steps. An idiot could do this. SEO doesn't need to be difficult. It's really easy once you know everything. Anyone that tells you it's really difficult and you can't do it yourself is trying to sell you their services. Someone with no computer experience could follow these 8 steps and rank first on Google Maps. What are you waiting for? Read the book today and ROCKET your business to the top.

Beginning Google Maps API 3 Gabriel Svennerberg, 2010. This book is about the next generation of the Google Maps API. It also describes how to deal with common problems that most map developers encounter at some point, like performance and usability issues with having too many markers and possible solutions to that. Introduction to the Google Maps API version 3. Solutions to common problems most developers encounter: too many markers, common JavaScript pitfalls, best practices using HTML, CSS, JavaScript, and Google Maps.

Build Location Apps on iOS with Swift Jeffrey Linwood, 2020. Work with Apple Maps, Google Maps, and Mapbox in iOS with Swift programming. Guided by practical examples, this book covers all three map frameworks to ensure you properly select which one best suits your iOS app's needs in working with iOS location. You'll see how Apple's privacy settings apply to a user's location and how to access that user's location from an application. Once you have access to the user's location, allow your app to display points of interest from Apple's database on the map inside the app, as well as to provide a search through that database by name. You can also incorporate turn-by-turn directions inside your own app to provide routes. Or trigger different functionality or notifications based on locational queues. With Build Location Apps on iOS with Swift, you'll even find out how to provide offline map support for hiking, camping, or other outdoors applications where cell phone service is weak. You will display points of interest within your own app. Work with Apple's privacy settings so pertinent information comes through. Trigger functionality based on geographic prompts. Create your own custom map styles with Mapbox Studio and display them in the app.
