**Contemporary Art** Julian Stallabrass,2020-12-10 Contemporary art has never been so popular but the art world is changing In a landscape of increasing globalization there is growing interest in questions over the nature of contemporary art today and the identity of who is controlling its future In the midst of this contemporary art continues to be a realm of freedom where artists shock break taboos flout generally received ideas and switch between confronting viewers with works of great emotional profundity and jaw dropping triviality In this Very Short Introduction Julian Stallabrass gives a clear view on the diverse and rapidly moving scene of contemporary art Exploring art s striking globalisation from the 1990s onwards he analyses how new regions and nations such as China have leapt into astonishing prominence over turning the old Euro American dominance on aesthetics Showing how contemporary art has drawn closer to fashion and the luxury goods market as artists have become accomplished marketers of their work Stallabrass discusses the reinvention of artists as brands This new edition also considers how once powerful art criticism has mutated into a critical and performative writing at which many artists excel Above all behind the insistent rhetoric of freedom and ambiguity in art Stallabrass explores how big business and the super rich have replaced the state as the primary movers of the contemporary art scene especially since the financial crisis and become a powerful new influence over the art world

**Janson's Short History of Art** Horst Woldemar Janson, Penelope J. E. Davies,2009 *Art history* ,1996

*From Museum Critique to the Critical Museum* Katarzyna Murawska-Muthesius, Piotr Piotrowski,2016-03-03 Since the

late nineteenth century museums have been cited as tools of imperialism and colonialism as strongholds of patriarchy, masculinism, homophobia and xenophobia and accused both of elitism and commercialism. But could the museum absorb and benefit from its critique, turning into a critical museum, into the site of resistance rather than ritual? This book looks at the ways in which the museum could use its collections, its cultural authority, its auratic space and resources to give voice to the underprivileged and to take an active part in contemporary and at times controversial issues. Drawing together both major museum professionals and academics, it examines the theoretical concept of the critical museum and uses case studies of engaged art institutions from different parts of the world. It reaches beyond the usual focus on western Europe, America and the World, including voices from as well as about eastern European museums which have rarely been discussed in museum studies books so far. **The art journal London**, 1876
