career ladder is simply a game of profits and resources and once you learn and understand how the people above you perceive value and who your clients really are you will soar past your colleagues If you don't want to spend years crawling your way to the top on your own like I did working twice as hard as everybody else just to get noticed for promotions then let me help you cut those years or even decades off that journey it's time to take control of your software career and kick it into high gear right now
