Contemporary Asian America Min Zhou, James V. Gatewood, 2007-01-01 How does one capture the delightful irony of Edith Wharton's prose or the spare lyricism of Kate Chopin's Kathleen Wheeler challenges the reader to experiment with a more imaginative method of literary criticism in order to comprehend more fully writers of the Modernist and late Realist period In examining the creative works of seven women writers from the late nineteenth and early twentieth centuries Wheeler never lets the mystery and magic of literature be overcome by dry critical analysis Modernist Women Writers and Narrative Art begins by evaluating how Edith Wharton Kate Chopin and Willa Cather all engaged in an ironic critique of realism They explored the inadequacies of this form in expressing human experience and revealed its hidden often contradictory assumptions Building on the foundation that Wharton Chopin and Cather established Jean Rhys Katherine Mansfield Stevie Smith and Jane Bowles brought literature into the era we now consider modernism Drawing on insights from feminist theory deconstructionism and revisions of new historicism Kathleen Wheeler reveals a literary tradition rich in narrative strategy and stylistic sophistication

Contemporary Asian America (third Edition) Min Zhou, Anthony Christian Ocampo, 2016-04-19 The third edition of the foundational volume in Asian American studies Who are Asian Americans Moving beyond popular stereotypes of the model minority or forever foreigner most Americans know surprisingly little of the nation's fastest growing minority population Since the 1960s when different Asian immigrant groups came together under the Asian American umbrella they have tirelessly carved out their presence in the labor market education politics and pop culture Many times they have done so in the face of racism discrimination sexism homophobia and socioeconomic disadvantage Today contemporary Asian America has emerged as an incredibly diverse population with each segment of the community facing its unique challenges When Contemporary Asian America was first published in 2000 it exposed its readers to the formation and development of Asian American studies as an academic field of study from its inception as part of the ethnic consciousness movement of the 1960s to the systematic inquiry into more contemporary theoretical and practical issues facing Asian America at the century's end It was the first volume to integrate a broad range of interdisciplinary research and approaches from a social science perspective to assess the effects of immigration community development and socialization on Asian American communities This updated third edition discusses the impact of September 11 on Asian American identity and citizenship the continued influence of globalization on past and present waves of immigration and the intersection of race gender sexuality and class on the experiences of Asian immigrants and their children The volume also provides study questions and recommended supplementary readings and documentary films This critical text offers a broad overview of Asian American studies and the current state of Asian America

Myth of the Model Minority Rosalind S. Chou, Joe R. Feagin, 2015-11-17 The second edition of this popular book adds important new research on how racial stereotyping is gendered and sexualized New interviews show that Asian American men feel emasculated in America's male hierarchy

Women recount their experiences of being exoticized subtly and otherwise as sexual objects The new data reveal how race gender and sexuality intersect in the lives of Asian Americans The text retains all the features of the renowned first edition which offered the first in depth exploration of how Asian Americans experience and cope with everyday racism The book depicts the double consciousness of many Asian Americans experiencing racism but feeling the pressures to conform to popular images of their group as America s highly achieving model minority
