**Doing Philosophy: An Introduction Through Thought Experiments** Lewis Vaughn, Theodore Schick, Jr., 2012-09-04  
Now in its fifth successful edition *Doing Philosophy* helps students understand the nature and purpose of philosophical inquiry by explaining what philosophical problems are how they can be solved and why searching for solutions is important. The book traces the historical development of philosophical thinking on a number of central problems and shows how philosophical theories have evolved in response to criticism. By introducing students to philosophical theorizing and encouraging them to formulate their own views *Doing Philosophy* inspires active learning and helps students become more accomplished critical thinkers. Instructors and students can now access their course content through the Connect digital learning platform by purchasing either standalone Connect access or a bundle of print and Connect access. McGraw Hill Connect is a subscription based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Providing a selection of papers presented at ICECE 2018 a biennial conference organised by the Early Childhood Education Program Universitas Pendidikan Indonesia. The conference's general theme was Finding Alternative Approaches Theories Frameworks and Practices of Early Childhood Education in the 21th Century. Distinct from other periods of time the 21st century is characterised by so much knowledge easy to access but hard to grasp.

borderless and hyper connected society mediated by the internet high competitiveness not only within a country but across countries high mobility and widening economic discrepancy as neoliberalism has strengthened its influence on every sector of human life The children of today will face many things that have not yet been invented or discovered sometimes beyond expectations Scholars and teachers of early childhood education need to be aware of these astonishing changes The way children and childhood are seen cannot stay the same and so does the way children of this century are educated The conference opened a discussion about finding alternative approaches theories and best practices of early childhood education for a rapidly changing and globalised society

### **Epistemic Thought Experiments and Intuitions** Manhal

Hamdo,2023-06-28 This work investigates intuitions nature demonstrating how philosophers can best use them in epistemology First the author considers several paradigmatic thought experiments in epistemology that depict the appeal to intuition He then argues that the nature of thought experiment generated intuitions is not best explained by an a priori Platonism Second the book instead develops and argues for a thin conception of epistemic intuitions The account maintains that intuition is neither a priori nor a posteriori but multi dimensional It is an intentional but non propositional mental state that is also non conceptual and non phenomenal in nature Moreover this state is individuated by its progenitor namely the relevant thought experiment Third the author provides an argument for the evidential status of intuitions based on the correct account of the nature of epistemic intuition The suggestion is the fitting ness approach intuition alone has no epistemic status Rather intuition has evidentiary value as long as it fits well with other pieces into a whole namely the pertinent thought experiment Finally the book addresses the key challenges raised by supporters of anti centrality according to which philosophers do not regard intuition as central evidence in philosophy To that end the author responds to them showing that they fail to affect the account of intuition developed in this book This text appeals to students and researchers working in epistemology
