The Oxford Handbook of Higher Education in the Asia-Pacific Region Devesh Kapur, Lily Kong, Florence Lo, David M. Malone, 2023-01-11 Since the turn of the millennium it has become clear that the Asia Pacific Region is economically the fastest growing continent in the world and is likely to remain so for some time despite the setbacks of the COVID 19 pandemic Asia Pacific s share of the world s Gross Domestic Product GDP doubled from 15 per cent to 30 per cent between 1970 and 2017 and is projected to account for half of global GDP by 2050 With South East and South Asia also growing rapidly with over half the world s population and three of the world s five largest economies Asia is soon poised to home half of the world s middle class a class that is both the driver and the product of higher education The quality of a country s system of higher education may be seen both as a gauge of its current level of national development as well as of its future economic prospects It is therefore natural that the putative Asian Century should generate interest in the region s higher education systems which on the one hand share common characteristics a fixation with credentials and engineering high technology especially among male students and business degrees while at the same time are also highly differentiated not only across countries but also within As such a better understanding of higher education achievements failings potential and structural limitations in the Asia Pacific Region is imperative This handbook presents a number of significant country case studies and documents cross cutting trends relating to among other things the trilemma faced by governments juggling competing claims of access accessible cost and quality the balance between teaching and research the links between labour markets demand and higher education supply preferred fields of study and their consequences the rise of the research university in Asia the lure of institutions of international reputation within the region new education technologies and their effects and trends in government policy within the wider region and sub regions **Tok Blong SPPF. , Jacaranda Humanities Alive 9 Australian Curriculum 3e learnON and Print** Robert Darlington, Matthew Richardson, Ashley Wood, Cathy Bedson, Denise Miles, Simon Phelan, 2023-11-20 Every lesson in the new Jacaranda Humanities Alive series has been carefully designed to support teachers and help students evoke curiosity through inquiry based learning while developing key skills Because both what and how students learn matter *Little Bosses Everywhere* Bridget Read, 2025-05-06 A groundbreaking work of history and reportage that unveils the stranger than fiction world of multilevel marketing a massive money making scam and radical political conspiracy that has remade American society Companies like Amway Mary Kay and Herbalife advertise the world s greatest opportunity the chance to be your own boss via an enigmatic business model called multilevel marketing or MLM They offer a world of pink Cadillacs white columned mansions tropical vacations and most precious of all financial freedom If that is you re willing to shell out for expensive products and recruit everyone you know to buy them and if they recruit everyone they know too thus creating the multiple levels of MLM Overwhelming evidence suggests that most people lose money in multilevel marketing and that many MLM companies are pyramid schemes Yet the industry s origins

tied to right wing ideologues like Ronald Reagan have escaped public scrutiny MLM has slithered in the wake of every economic crisis of the last century from the Depression to the pandemic ensnaring laid off workers stay at home moms and teachers anyone who has been left behind by rising inequality In Little Bosses Everywhere journalist Bridget Read tells the gripping story of multilevel marketing in full for the first time winding from sunny postwar California where a failed salesman started a vitamin business through the devoutly religious suburbs of Michigan where the industry built its political influence to stadium size conventions where today s top sellers preach to die hard recruits MLM has enriched powerful people like the DeVos and Van Andel families Warren Buffett and President Donald Trump all while eroding public institutions and the social safety net then profiting from the chaos Along the way Read delves into the stories of those devastated by the majority female industry a veteran in Florida searching for healing a young mom in Texas struggling to feed her children a waitress scraping by in Brooklyn A wild trip down an endless rabbit hole of greed and exploitation Little Bosses Everywhere exposes multilevel marketing as American capitalism s stealthiest PR campaign a cunning grift that has shaped nearly everything about how we live and whose ultimate target is democracy itself

The Feminist Fallacy Conrad Riker, Are you tired of swiping left on countless dating apps only to find women who seem to have impossibly high standards Are you struggling to understand why women are increasingly rejecting men at their level in favor of an idealized version of a man that doesn t exist If so this book is for you The Feminist Fallacy explores the modern phenomenon of hypergamy where women naturally seek to marry up in status and how social media has exacerbated this problem It delves into the role that left wing ideologies like Marxism play in distorting women s self perception and expectations and the contradictions within feminism that encourage women to look down on men who don t meet their unrealistic standards This eye opening book also examines the obsession with the 1% man prototype and the psychological impact on men who are constantly undermined and berated by the very women they are trying to attract It investigates the growing trend of men choosing to opt out of relationships and marriage and what this means for the future of relationships between men and women The Feminist Fallacy ultimately seeks to expose the truth about the state of relations between men and women and promote a more balanced and realistic understanding of the sexes It provides potential solutions and strategies for both men and women to find a more fulfilling relationship dynamic based on mutual respect and understanding of biological and psychological realities If you want to understand the complexities of modern dating and relationships and develop strategies for navigating this difficult landscape then buy this book today Read The Feminist Fallacy and join the redpill revolution for a better future for both men and women
