## Zelle Ideas:

**The Idea of Form** Rodolphe Gasché, 2003 Against the assumption that aesthetic form relates to a harmonious arrangement of parts into a beautiful whole this book argues that reason is the real theme of the Critique of Judgment as of the two earlier Critiques Since aesthetic judgment of the beautiful becomes possible only when the mind is confronted with things of nature for which no determined concepts of understanding are available aesthetic judgment is involved in an epistemological or rather para epistemological task The predicate beautiful indicates that something has minimal form and is cognizable This book explores this concept of form in particular the role of presentation *Darstellung* in what Kant refers to as mere form which involves not only the understanding but also reason as the faculty of ideas Such a notion of form reveals why the beautiful can be related to the morally good On the basis of this reinterpreted concept of form most major concepts and themes of the Critique of Judgment such as disinterestedness free play the sublime genius and beautiful arts are examined by the author and shown in a new light

historical meaning and scope of Wolff's psychology both in its internal structure and in its relation to other parts of his philosophical system such as logic cosmology aesthetics or practical philosophy The second part deals with the reception and impact of Wolff's psychology starting with early reactions from his disciples and opponents and moving on to Kant Hegel and Wundt The Force of an Idea New Essays on Christian Wolff's Psychology shows not only that Wolff's psychological ideas have been misinterpreted but also that they are historically more significant than traditional wisdom has it The book therefore will be of interest to historians and philosophers of science historians of philosophy and psychology as well as to philosophers and psychologists interested in understanding the roots of scientific psychology in 18th and 19th century German philosophy
