*Tradicionales y moderados ante la difusión de la filosofía krausista en España* José Manuel Vázquez-Romero, 1998-01-01

La presentación de la filosofía krausista en distintas instituciones desde universidades hasta academias y su difusión en diversas publicaciones constituye un fenómeno de enorme importancia para la cultura española de la segunda mitad del ochocientos. Todo el mundo culto participó o asistió a sus discusiones en catedras y ateneos en tertulias y corrillos. Los resultados de esta investigación arrojan algo de luz sobre la comprensión que de la filosofía krausista se forjaron distintos sectores de la inteligencia española decimonónica en concreto ideologías intrasiguentes y moderadas de la segunda mitad de siglo. Diseño del curso-taller "La historieta como medio de difusión de investigaciones universitarias" Editorial Digital UNID, Rosalía Rodríguez Mercado, 2016-05-02

México es un país en el cual se encuentran contrastes tanto geográficos como sociales y culturales. Esta realidad se vive en las escuelas donde además conviven todo tipo de estilos de aprendizaje y de enseñanza. Este trabajo surge con base en esta realidad por ello tiene como objetivo establecer un lazo que una a la investigación que se realiza cotidianamente en los centros educativos con la gente que se encuentra al margen del ámbito escolar a través de un medio de comunicación que ha sido utilizado principalmente con fines ideológicos y de penetración cultural: la historieta. La premisa de este estudio es diseñar un curso multimedia para que los estudiantes universitarios sean capaces de utilizar a la historieta como un medio de difusión de la cultura que surge de las aulas. En esta investigación se aborda la historia, usos, características y elaboración de la historieta por considerarla un medio accesible para difundir a todo tipo de público contenidos informativos e incluso educativos con base en un trabajo de investigación realizado previamente. Este trabajo se lleva a cabo porque hasta el momento algunas materias como Metodología de la Investigación se imparten de manera tradicional privilegiando la información sobre la formación sin fomentar el compromiso social del alumno y de las instituciones universitarias de difundir la cultura que surge de sus aulas. La presente investigación inició con la elaboración de trabajos que formaron parte de la evaluación de algunas materias que la autora cursó como parte de la Maestría en Educación que imparte la Universidad Interamericana para el Desarrollo UNID. No obstante conforme se profundizó más en el conocimiento de herramientas y técnicas pedagógicas se vio no sólo la importancia de la información y habilidades adquiridas sino que se clarificó la unión entre ellas.

**Biblioteca de difusión científica del Museo de La Plata**, 1907 **Edición académica y difusión. Libro abierto en Iberoamérica** Giménez Toledo, Elea, Córdoba Restrepo, Juan Felipe, 2018-11-11

Conocer la situación del acceso abierto del libro académico en Iberoamérica fue el objetivo de la investigación que se presenta en este libro. Entender las dinámicas propias de los libros en acceso abierto en el espacio iberoamericano en este momento particular permite trazar rutas y diseñar estrategias que favorezcan la presencia de contenidos académicos en español y en otros idiomas de la región en la red. Todo ello entendiendo el acceso abierto como una extraordinaria posibilidad de divulgación y circulación de contenidos académicos además de verlo como un compromiso con la sociedad. La panorámica que se ofrece en este libro es

resultado de un estudio en el que participaron más de ciento cuarenta editoriales universitarias latinoamericanas por medio de un instrumento diseñado para tal fin aportando información sobre la edición digital y la edición de publicaciones en acceso abierto en la región. Estos resultados fueron complementados mediante entrevistas a algunos de los coordinadores de las redes nacionales de editoriales universitarias y con varios representantes del sector. Adicionalmente los resultados son comparados con los de España. El estudio se complementa además con una revisión del entorno global de la edición de libros en abierto y de los posibles modelos de financiación así como algunos análisis sobre la propiedad intelectual.
