Popular Photography ,1991-01 Advances in Fig Research and Sustainable Production
 Moshe A. Flaishman,Uygun Aksoy,2022-05-25 The common fig Ficus carica L is one of the oldest fruits domesticated by humans and is native to southwest Asia and the Mediterranean Figs have been associated with health and prosperity since ancient times They are rich in fibre potassium calcium and iron as well as being an important source of vitamins amino acids and antioxidants In recent years increased consumption has caused fig production to shift to new countries such as Mexico Brazil India and China However fig is a challenging fruit crop to grow It is susceptible to insect pests and diseases as well as injuries from abiotic stress during fruit development and ripening As a delicate fruit it also requires complicated postharvest procedures and climate change presents additional challenges This volume serves as a comprehensive reference for current and future practices of fig production consumption research and innovation and is essential for academic researchers and those involved in research and development in the fig industry
