functions that cater specifically to businesses to help them maximize the gains of using Facebook as a platform to connect with real prospects without having to go out and find them. These days any business that can't be found on Facebook is considered obsolete and outdated. With 90% of consumers looking first to Facebook in search of products and services, businesses that operate exclusively outside of the platform risk losing visibility in the midst of thick competition. Plus, people feel more comfortable transacting with businesses through Facebook. It's convenient, it's easy, and it's familiar, and studies have found that prospects that reach out to businesses on Facebook tend to feel more secure knowing they're dealing with an entity that they can trust. Why? Well, it's not entirely clear why Facebook brings an air of familiarity and reliability, but many experts believe it's because the platform is used to connect with friends.
