what to pay for college a decision made even more confusing because of the Covid 19 pandemic Sending a teenager to a
flagship state university for four years of on campus living costs more than 100 000 in many parts of the United States
Meanwhile many families of freshmen attending selective private colleges will spend triple over 300 000 With the same
passion smarts and humor that infuse his personal finance column Ron Lieber offers a much needed roadmap to help families
navigate this difficult and often confusing journey Lieber begins by explaining who pays what and why and how the financial
aid system got so complicated He also pulls the curtain back on merit aid an entirely new form of discounting that most
colleges now use to compete with peers While price is essential value is paramount So what is worth paying extra for and
how do you know when it exists in abundance at any particular school Is a small college better than a big one Who actually
does the teaching Given that every college claims to have reinvented its career center who should we actually believe He
asks the tough questions of college presidents and financial aid gatekeepers that parents don't know or are afraid to ask and
summarizes the research about what matters and what doesn't Finally Lieber calmly walks families through the process of
setting financial goals explaining the system to their children and figuring out the right ways to save borrow and bargain for
a better deal *The Price You Pay for College* gives parents the clarity they need to make informed choices and helps restore
