Pitt, 2025-04-15 Botanical Imagination explores the complicated legacy and enduring lure of plant life in modern Japanese literature and media Using critical plant studies Jon L. Pitt examines an unlikely group of writers and filmmakers in modern Japan finding in their works a desire to become botanical in both content and form For nearly one hundred years a botanical imagination grew in response to moments of crisis in Japan's modern history Pitt shows how artists were inspired to seek out botanical knowledge in order to

construct new forms of subjectivity and attempt to resist certain forms of state violence As he follows plants through the tangled histories of imperialism and state control Pitt also uncovers the ways plants were used in the same violence that drove artists to turn to the botanical as a model of resistance in the first place Botanical Imagination calls on us to rethink plants as significant but ambivalent actors and to turn to the botanical realm as a site of potentiality [How Plants Protect Themselves](#) Sarah Machajewski,2019-07-15 When it comes to survival plants are regular pros but their defenses aren't always easy to see This high interest science book exposes the plant kingdom's biggest secrets allowing readers to really understand what goes on under the soil and right in front of our faces Budding botanists will be excited to learn the varied ways plants protect themselves from color muted camouflage to painful pokers and everything in between Engaging language high impact fact boxes and photographs make this elementary science content memorable and fun *The Culture of Feedback* Daniel Belgrad,2019-08-30 When we want advice from others we often casually speak of getting some feedback But how many of us give a thought to what this phrase means The idea of feedback actually dates to World War II when the term was developed to describe the dynamics of self regulating systems which correct their actions by feeding their effects back into themselves By the early 1970s feedback had become the governing trope for a counterculture that was reoriented and reinvigorated by ecological thinking The Culture of Feedback digs deep into a dazzling variety of left of center experiences and attitudes from this misunderstood period bringing us a new look at the wild side of the 1970s Belgrad shows us how ideas from systems theory were taken up by the counterculture and the environmental movement eventually influencing a wide range of beliefs and behaviors particularly related to the question of what is and is not intelligence He tells the story of a generation of Americans who were struck by a newfound interest in and respect for plants animals indigenous populations and the very sounds around them threading his tapestry with cogent insights on environmentalism feminism systems theory and psychedelics The Culture of Feedback repaints the familiar image of the 70s as a time of Me Generation malaise to reveal an era of revolutionary and hopeful social currents driven by desires to radically improve and feed back into the systems that had come before **The Secret Life of Plants** Peter Tompkins,Christopher Bird,1984-04-01 **Life of Plants** Sir Frederick Keeble,1926 **Psychic** ,1973 [Sepia](#) ,1980 *Jurassic Fossils from Jubaland, East Africa* Joh Weir,1929 [The Living Age](#) ,1880 *The English Flower Garden* Henry Arthur Bright,1881 [The Natural History of Plants](#) Anton Kerner von Marilaun,1895 [Biology and configuration of plants](#) Anton Kerner von Marilaun,1902 **The Natural History of Plants: Introduction; The Living Principle in Plants; Absorption of Nutrient; Conduction of Food; Formation of Organic Matter from the Absorbed Inorganic Food; Metabolism and Transport of Materials; Growth and Construction of Plants; Plant-Forms as Completed Structures** Anton Kerner von Marilaun,1895 [The Natural History of Plants: Biology and configuration of plants](#) Anton Kerner von Marilaun,1902
