Certainly a WebOS Web standards based apps using HTML5 JavaScript CSS3 and more are now possible on Facebook. Why not get started with developing and selling Facebook game apps on Facebook's App Store. *Beginning Facebook Game Apps Development* gets you started with building your first game apps that run on Facebook. Become your own Zynga and create your own Civilization or Farmville and more. Build rich Web based apps that you can sell on Facebook's App Store. Because these apps are built on Web standards you can build and run on many browsers and more interestingly more computers tablets smartphones and even other devices and appliances that are Web connected or enabled.

*Core HTML5 2D Game Programming* David Geary, 2014-06-30 Game programming offers a wealth of creative and business opportunities and it's never been more accessible. In *Core HTML5 2D Game Programming* best selling author David Geary shows you how to use freely available browser tools and open source resources to create video games that run in desktop browsers and on mobile devices. Geary walks you step by step through every aspect of implementing a sophisticated arcade style game entirely from scratch without using proprietary game frameworks. Packed with code this full color tutorial gives you the in depth understanding you need to design and build any kind of HTML5 2D game on your own whether you use a framework or not. A clearly written accessible and exhaustive guide to implementing games this book leaves no stone unturned showing you how to Create smooth flicker free animations Implement motion that's unaffected by your game's underlying animation frame rate Animate sprites graphical objects to make them sparkle explode etc Layer multi channel sound effects on top of a soundtrack Warp time to create nonlinear effects such as jumping or bouncing Control the flow of time through your game with a time system Implement particle systems that simulate natural phenomena Efficiently detect collisions between sprites Create a developer backdoor containing special features Use Node.js and socket.io to transfer real time metrics to a server Employ a heads up display to show high scores stored on a server Understand the nuances of implementing HTML5 games for mobile devices Through expertly written code that's easy to understand and prose that cuts to the chase Geary illuminates every corner of game development. Everyone from novice game programmers to professional game developers will find this book invaluable as both a tutorial and a reference. All of the book's source code including chapter specific versions of the game discussed in the book are available at [corehtml5games.com](http://corehtml5games.com)
