Basic Logistics and Shipping Solution Dr. Subodh Sachan, Prof. Dr. Punit Goel, Niharika Singh, Dr. K Yogesh, 2026-03-08

Logistics and shipping form the invisible backbone of modern commerce. From the movement of raw materials to factories to the delivery of finished products to consumers across cities and countries, efficient logistics systems enable trade, economic growth, and everyday convenience. In an increasingly interconnected and digitally driven world, understanding the fundamentals of logistics and shipping has become essential not only for professionals but also for students, entrepreneurs, and policymakers. The book *Basic Logistics and Shipping Solutions* is designed to provide a clear, structured, and practical introduction to the core concepts of logistics and shipping. It aims to bridge the gap between theory and real-world practice by explaining complex ideas in simple language, supported by examples and case illustrations. The content has been carefully organized to suit diploma-level learners, undergraduate and postgraduate students, as well as entry-level professionals seeking foundational knowledge of logistics operations. This book covers a wide range of topics, including transportation modes, warehousing, inventory management, packaging, and cargo safety, shipping documentation, cost management, and the role of technology in modern logistics. It also explores emerging trends such as sustainable logistics, e-commerce distribution, and digital transformation, reflecting the evolving nature of the industry. Each chapter is structured to build progressively, enabling readers to develop a comprehensive understanding of logistics systems and their practical applications. A key objective of this book is to promote analytical thinking and operational awareness. By highlighting real-world challenges and industry practices, the book encourages readers to view logistics not merely as a support function but as a strategic driver of efficiency, competitiveness, and customer satisfaction. Emphasis is placed on responsible and sustainable logistics practices, recognizing their growing importance in global trade and environmental stewardship.

In Search of Business Models in Social Entrepreneurship Samapti Guha, Satyajit Majumdar, 2021-05-28

This book discusses different innovative business models adopted by social enterprises to bring about social change in terms of creating capabilities among the marginalized section of people. These models also bring the sustainability of the enterprises to serve the people continuously. Establishing a theoretical base for further research in the area of business models in social entrepreneurship, the book consists of research work from various disciplines from scholars with experience and insights on social entrepreneurship and who discuss one or more aspects of business model, presenting their work with sound research methodologies.
