Best Practices of Literacy Leaders Allison Swan Dagen, Rita M. Bean, 2020-02-05 This authoritative text and practitioner resource has now been extensively revised and expanded with 70% new material covering new topics and standards in literacy leadership. Prominent experts present research-based methods for improving instruction, assessment, and professional learning experiences in PreK-12. The distinct roles of teachers, reading literacy specialists, literacy coaches, special educators, and principals are explored with an emphasis on fostering a culture of collaboration. Chapters highlight the standards that apply to each component of a schoolwide literacy program, give examples of what they look like in schools, and share implications for classroom practice and professional learning. Pedagogical features include guiding questions, case examples, vignettes, engagement activities, and annotated resources for further learning. New to This Edition: Now copublished with the International Literacy Association (ILA) and grounded in ILA's updated Standards 2017, expanded grade range includes PreK. Chapters on new topics: writing instruction, sustaining schoolwide improvements, and collaborative leadership. New chapters on core topics: the principal's role, assessment, middle and high school literacy programs, special education, and culturally responsive instruction. Vignettes from leaders in diverse roles. Think About This: questions for discussion, reflection, and end of chapter annotated resources.

Multi-Tiered Systems of Support in Elementary Schools Alison G. Clark, Katherine A. Dockweiler, 2019-11-28 *Multi-Tiered Systems of Support in Elementary Schools* is the leadership handbook and practitioner's field guide to implementation of Multi-Tiered Systems of Support (MTSS) in elementary schools, leading to improved student outcomes and school safety. Schools can creatively customize replicable best practices using this in-depth operations manual to guide MTSS teams in planning and delivering tiers of academic and integrated social, emotional, and behavioral supports to meet the needs of all students. This text introduces *Healthy Minds Safe Schools*, an evidence-based program that significantly improves student well-being, school safety, and teacher feelings of self-efficacy for delivering social, emotional, and behavioral curriculum in the classroom. Featuring team exercises and real perspectives from educators, this text shows how to make incremental yet manageable changes at elementary schools in accordance with public policy mandates and evidence-based practices by developing smart teams and programs, identifying roles and responsibilities, implementing layers of academic support and services, improving social, emotional, and behavioral health of students, and creating an inclusive school culture. It details organizational psychology and socially just educational practices and is a handbook aligned with the U.S. Secret Service National Threat Assessment Center guidebook for preventing school violence and with the National Center for School Mental Health Curriculum.
