Teaching strategies are grounded in the NCTM standards and illustrated with real student work. In addition, the author provides a full range of concrete developmental activities that encourage future teachers to make math make sense for themselves as well as for their students. Integrated in this unique combined approach to teaching mathematics is a thorough discussion of math manipulatives as well as the use of technology, computer, and otherwise to assist today's mathematics teacher. For educators, aids, and parents responsible for teaching Pre-K to fourth grade math: *Results-Driven Teaching* Keen J. Babbage, 2007.
