Social Justice and Culturally-Affirming Education in K-12 Settings Chitiyo, Jonathan, Pietrantoni, Zachary, 2023-01-27

Social justice is a philosophy that has gathered momentum over the past few years to bring to light the inequities that exist within our society. In the field of education, social justice illuminates the challenges that marginalized students and minority students face compared to other students. *Social Justice and Culturally Affirming Education in K-12 Settings* seeks to bring together social scientists, researchers, and other practitioners to delve into social justice issues in K-12 settings and considers the various challenges and future directions that are associated with this field. Covering key topics such as inclusive education, educational reform, and school policies, this reference work is ideal for administrators, policymakers, researchers, academicians, practitioners, scholars, instructors, and students. *Training the Girl* William Arch McKeever, 1914

Complementing his book *Training the Boy*, McKeever discusses the training girls need from childhood through adolescence and into adulthood, focusing particularly on vocational, social, and industrial training. Lippincott's Textbook for Nursing Assistants Pamela J. Carter, 2007-06-01. Now in its Second Edition, this textbook prepares students to work as nursing assistants in long-term care, acute care, and home health care settings and provides a firm foundation for advancement to an LPN and ultimately an RN role. The book is written in a direct, conversational writing style with an emphasis on professionalism and humanism. This edition is significantly updated and has new photographs and illustrations. A front-of-book CD-ROM includes an audio glossary. An audiobook version of the entire text in MP3 format is available as a separate purchase. A student edition DVD containing selected procedures from Lippincott's Video Series for Nursing Assistants is also available as a separate purchase. *Practical Ideas for Addressing Challenging Behaviors* Susan Rebecka Sandall, Michaelene Ostrosky, 1999. This monograph discusses how to more effectively prevent, identify, and address challenging behaviors by taking a positive behavioural approach. *Weiner's Pain Management* Mark V. Boswell, B. Eliot Cole, 2005-08-31. This seventh edition of a bestseller has been totally revised and updated, making this the most comprehensive rewrite in the book's long and distinguished history. It includes new chapters, new sections, and section editors and new contributors. Offering an interdisciplinary approach to pain management, the book delivers a scholarly presentation for *Organizational Climate* Robert Paul Cardinaux, 1978. Essentials of Gerontological Nursing Meredith Wallace Kazer, 2007-10-22. *Essentials of Gerontological Nursing* presents the best practices needed to care for older adults. Its brief yet comprehensive grasp of issues in elder care is a refreshing addition to the current literature, which is more commonly focused on theory than on clinical practice. Designed primarily for students in gerontological nursing courses in BSN and graduate programs, the book provides essential clinical information and best practices needed to care for older adults. Current research and new patient approaches in gerontological nursing. Overviews of rarely discussed issues such as elder abuse, cultural considerations, and restraint alternatives. Clinical specifications and practical applications. Content designed to fit into a one-semester course.
