New Routes to Library Success: 100+ Ideas from Outside the Stacks Elisabeth Doucett, 2015-04-13 Today's library leaders face a world in which the only constant is change. Seeking out innovative ways to meet the evolving needs of their communities has become a critical part of their responsibilities. In this book, Doucett mines new territory in this ongoing effort by exploring how successful organizations outside the stacks conduct their business. She interviews leaders of advertising, online commerce, fundraising, retailing, crowdsourcing, and other organizations, including Kickstarter, L.L. Bean, Down East Magazine, and Tom's of Maine, among others, learning what they do exceptionally well. From this research, she presents more than 100 examples of game-changing ideas ready for application in libraries. And most importantly, she articulates a simple process that readers can use to pursue the same path of exploration at their own institutions, including the actual questions used during her interviews. An exciting survey of creativity in action, Doucett's book will encourage public library directors, managers, trustees, and staff to cross-pollinate their own expertise with innovative ideas from outside the stacks.

Customer-Dominant Logic Manfred Bruhn, Maxim Saleschus, Karsten Hadwich, 2024-11-26 This book provides a structured overview of Customer Dominant Logic and formulates fundamental principles that form the basis for a realignment of customer-oriented corporate management. Customer Dominant Logic is an innovative marketing logic that consistently places the customer at the center of all business activities. This requires a fundamental shift in perspective where the integration of the provider with the customer takes precedence over the integration of the customer with the provider. Based on the principles of Customer Dominant Logic, the authors present their own and new systematic management approach. They introduce Customer Dominant Management, detailing all necessary phases of a management process. Customer Dominant Management aims to realize both customer and company goals through the establishment of a partnership with value-creating offerings in the customer ecosystem.

The Seven P's of the Apple Watch's Marketing-Mix Santiago Mas, 2018-08-22 Research Paper, undergraduate from the year 2016 in the subject Business Economics. Offline Marketing and Online Marketing, grade 1-3, University of Applied Sciences Essen, course Master of Business Administration, MBA, language English. Abstract: After setting marketing objectives and marketing strategies, the Marketing Mix represents the third and last level of planning in the marketing conception. Therefore, once the market for the Apple Watch has already been defined and correspondingly analyzed, the next step will be to review what the different elements of the Apple Watch Marketing Mix are and how they interact with each other. The interaction among them shows clearly how changes and decisions made, which affect to one specific area of a product's Marketing Mix, produce different changes and up to what extent in the rest of the elements, demonstrating that they cannot be seen, considered, or analyzed separately but as a whole. It is clear then that only by approaching the Apple Watch Marketing Mix as a whole, in which each part is irreplaceable and subordinated to Apple's marketing strategy, can be obtained a complete view of the level of efficiency they achieve when
