

A futuristic, blue-toned digital interface with glowing lines, data points, and abstract shapes. The text "AI OVERVIEW" is centered in a bold, white, sans-serif font. The background features a dark blue gradient with various glowing elements, including a large, stylized "A" on the left and a circular graphic on the right. The overall aesthetic is high-tech and modern.

*Readings in Artificial Intelligence and Databases* John Mylopoulos, Michael L. Brodie, 2014-06-28 The interaction of database and AI technologies is crucial to such applications as data mining active databases and knowledge based expert systems This volume collects the primary readings on the interactions actual and potential between these two fields The editors have chosen articles to balance significant early research and the best and most comprehensive articles from the 1980s An in depth introduction discusses basic research motivations giving a survey of the history concepts and terminology of the interaction Major themes approaches and results open issues and future directions are all discussed including the results of a major survey conducted by the editors of current work in industry and research labs Thirteen sections follow each with a short introduction Topics examined include semantic data models with emphasis on conceptual modeling techniques for databases and information systems and the integration of data model concepts in high level data languages definition and maintenance of integrity constraints in databases and knowledge bases natural language front ends object oriented database management systems implementation issues such as concurrency control and error recovery and representation of time and knowledge incompleteness from the viewpoints of databases logic programming and AI

**Human Factors and Design** Yuri Spirochkin, 2023-02-27 This book describes various manifestations of human factors when interacting with potentially dangerous technical systems airplanes launch vehicles and spaceships nuclear power plants energy saturated ground vehicles and infrastructure facilities The idea of the book arose from the desire to find a common ground between industries that are important for safety Their similarity lies in addition to the technological advancement of products and solutions in equally high safety requirements in particular taking into account the influence of human factor Thus it is of relevance to analyze an impact of human factor in the context of safety The matter is rather complex on the one hand humans manage technical systems on the other hand human errors negligence or evil intentions can turn the system into a threat with disastrous consequences However human interaction with any technical system begins earlier in the design stage In this stage designer being creator of the system must ensure a safe operation and take into consideration possible risks including those caused by human factors itself The book is interdisciplinary in nature and intended mainly for designers of technical systems aiming to assist the specialists in understanding the issues of human participation in life cycle of these systems The examples given are intended to benefit from experiences of not one but a number of industries

Project Management for European, Asian and African Practitioners—Theory and Technique  
Examples in Selected Professions Narasimha Rao Vajjhala, Kenneth David Strang, 2025-01-21 This book bridges the gap between theory and practice offering a rich exploration of project management practices across Europe Asia and Africa This book presents a collection of cutting edge research and case studies that illustrate the application of project management principles in various industries and regions Through contributions from global scholars and practitioners this book covers a
