Bryony Gordon: What do you do when your relationship suddenly ends? How do you cope when the cosy coupley future you had planned disappears? Join comedian Helen Thorn from *The Scummy Mummies* as she haphazardly takes the plunge into single life for the first time in twenty-two years. Helen shares her own roller coaster journey from the initial shock of a surprise separation, the messy months hanging out in her PJs, through to the highs of rediscovering online dating, tiny pants, rock-solid female friendships, and the glorious joy of just being by herself. With the help of relationship experts and an army of women who know, *Get Divorced, Be Happy* will show you that going it alone isn't the end; it is just the beginning, and you will come out the other side stronger, happier, and goddamn sassier than ever before. *From Malthus to Mars* Nicolai Chen Nielsen, Lars Tvede, 2023-03-21 A compact, insightful, and practical guide for leaders and managers to flourish in our coming Exponential Age. Azeem Azhar, founder Exponential View: In 1798, the influential cleric, scholar, and economist Thomas Malthus predicted that the world would soon run out of food as linear food production growth would be unable to feed the exponentially growing population. Fast forward 200 years, and the world's population has grown almost 10 times, and we are closer to colonizing Mars than we ever will be to running out of food. The reason? Innovation. Innovation driven by mass digitization and the convergence of exponentially growing technologies. We know that exponential laws often follow predictable patterns, and this allows us to predict when futuristic applications will become possible and economically feasible. In *From Malthus to Mars*, Nicolai Chen Nielsen and Lars Tvede outline the wild future that we are speeding into. Wild, among other things, in terms of anti-ageing, compact farming, robotics, radically new energy solutions, and a fast, fluid, and flexible world of work. The authors map concrete forecasts for when upcoming technologies will break through and change our world, and they paint a picture of what the

future in the coming years will look like We will learn that while the future is destined to bring a multitude of new opportunities and enhanced abundance it will also bring increased demands for us as individuals and as organizations To equip us to thrive in the future Nielsen and Tvede outline eight key mindsets These mindsets will help us navigate future trends reach our most desired future and give us the ability as we understand trends to apply exponentiality and make decisions under uncertainty The authors also present ten shifts that winning organizations of the future must consider in order to transform themselves and their industries again and again Between them Nielsen and Tvede have founded co founded 13 companies advised more than 30 Fortune 500 companies developed thousands of leaders and published 20 books
