*Machine Vision Analysis in Industry 5.0* Vivek Kumar Singh, Jitendra Kumar, Deepika Saxena, Abhishek Verma, T. Akilan, Ashutosh Kumar Singh, 2025-09-25 This book is an introduction to fundamental techniques of image analysis with machine vision and their applicability in Industry 5.0 It provides basic and emerging techniques in the field of image analysis and machine vision in Industry 5.0 It also covers an extensive study of recent related work and research challenges in the field Further it discusses some effective solutions to address the challenges of digitally transforming industrial activities and improving their efficiency Provides effective and robust machine vision enabled methods across different industrial fields emphasizing their applicability and reliability Covers the emerging concepts of image analysis and machine vision utilized in the digital transformation of manufacturing activities under Industry 5.0 Discusses conceptual methodologies of image analysis and machine vision tailored for various industrial applications providing insights into their practical implementation Practical issues on implementing machine vision applications with image analysis techniques in Industry 5.0 are addressed offering guidance on method implementation Includes case studies of various industrial processes highlighting current challenges and presenting effective solutions offering real world insights into the application of machine vision It is a reference book for research students scientists and professionals working in the fields of image processing computer vision and the Internet of Things

Intelligent Communication, Control and Devices Sushabhan Choudhury, Ranjan Mishra, Raj Gaurav Mishra, Adesh Kumar, 2019-08-28 The book focuses on the integration of intelligent communication systems control systems and devices related to all aspects of engineering and sciences It includes high quality research papers from the 3rd international conference ICICCD 2018 organized by the Department of Electronics Instrumentation and Control Engineering at the University of Petroleum and Energy Studies Dehradun on 21-22 December 2018 Covering a range of recent advances in intelligent communication intelligent control and intelligent devices the book presents original research and findings as well as researchers and industrial practitioners practical development experiences of
