

Personal Leadership Profile

6 pages | 1349 words

The following pages consist of information about Leadership; I will have to admit I knew nothing about leadership and the many perspectives and ideas about Leadership and how to be an effective leader. I selected a Leader to study who is known as an effective leader and has made a difference in the world. Our world would not be the same if he had not made those choices to change his world that he lived in. I knew very little about the man that is known for his "radiant smile" and desired to know more about what caused him to be known throughout the world.

I had only heard that he spent years in prison and became the first Democratic President in his country. Throughout these pages you will read the analysis of my chosen Leader's style of effective leadership through six perspectives: trait, behavioral, situational, and constitutive which includes two theories of transactional and transformational leadership, and global leadership. I have also included a comparison of my leadership style with this "Great Man" in each of the six perspectives. Before comparing myself, I thought, I could never stand in the same room with this man, and now I am comparing myself to him.

To my amazement, there is a significant learning experience that one can gain in comparing yourself with someone great like this man. I found out who I am, who I want to become and what improvements need to be made to become an effective leader, no matter how big or small our leadership role is, in this world, in our sphere of influence, "We are all Leaders". I have concluded this paper with a personal leadership profile and a plan of leadership development that I will continue until I have become an effective Leader and have made a difference in my world, in my sphere of influence, in a positive and significant way.

Personal Leadership Profile The goal of my project is to examine the leadership qualities and practices of my selected leader and to also examine myself through a range of leadership perspectives. In the following pages I have examined six perspectives on leadership. I will conclude with a Personal Leadership Profile and a leadership development plan for myself. The name of my selected leader is Nelson Mandela. He was the first Democratic President in South Africa.

Before going into my research, I knew very little about Nelson Mandela, I noticed when great leaders were talked about his name was always included. What I do know, is that he was a leader in Africa and he spent 27 years in prison. I have also read many of his quotes that give me the impression that he has changed Africa and the world. One of his quotes that I paraphrased into my own words and I can relate to is when he said: I always look at the positive side of things versus the negative; being positive is always looking up towards the sun, and to keep moving forward.

What Is the Impact of a Certain Leadership Style on Business? A Closer Look On a Business Unit Alexandra Vacaretiu, 2020-11-19 Bachelor Thesis from the year 2020 in the subject Leadership and Human Resources Management Styles grade 10 00 language English abstract The purpose of this thesis is to determine the impact of leadership styles on the business Specifically the paper is aimed at defining the relationship between the leadership style and a certain unit performance To this objective the first chapter introduces the reader to the leadership concept shows its importance in the daily life and its correlations with the HR field The theoretical insights into the leadership phenomena and its effects on the business are provided by the paper s state of the art Subsequently the chapter of methodology presents the objective of the research and briefly the chosen company that the study is conducted on It also defines the variables and describes the process of data collection and the participants The chosen company is NN Group Romania specifically the NN subsidiary in Brasov from which one of its units was empirically analysed The analysed leadership styles are transformational and transactional types as I consider them to be the fundamentals of the styles They serve as independent variables in the study

The SPSS software tests these variables for a potential correlation with the dependent variable which is unit performance. The data was provided by twelve participants consisting of one leader and eleven followers who answered an online survey constructed in Sosci Survey. Further the chapter of practical approach starts with the explicit description of the company. Moreover in order to generate numerical values for describing the relation between the variables a linear regression model was implemented and interpreted. This chapter ends with recommendations to the company after proving that there are two positive correlations between the leadership styles and the unit performance in the chosen unit of NN Romania. Both transformational and transactional leadership influence the unit performance and thus they have a positive impact on the business. Eventually the conclusion of this paper summarizes the most significant concepts and findings as well as offers a personal perspective on the study.
