Artificial Intelligence and Causal Inference Momiao Xiong, 2022-02-03 Artificial Intelligence and Causal Inference address the recent development of relationships between artificial intelligence AI and causal inference Despite significant progress in AI a great challenge in AI development we are still facing is to understand mechanism underlying intelligence including reasoning planning and imagination Understanding transfer and generalization are major principles that give rise intelligence One of a key component for understanding is causal inference Causal inference includes intervention domain shift learning temporal structure and counterfactual thinking as major concepts to understand causation and reasoning Unfortunately these essential components of the causality are often overlooked by machine learning which leads to some failure of the deep learning AI and causal inference involve 1 using AI techniques as major tools for causal analysis and 2 applying the causal concepts and causal analysis methods to solving AI problems The purpose of this book is to fill the gap between the AI and modern causal analysis for further facilitating the AI revolution This book is ideal for graduate students and researchers in AI data science causal inference statistics genomics bioinformatics and precision medicine Key Features Cover three types of neural networks formulate deep learning as an optimal control problem and use Pontryagin's Maximum Principle for network training Deep learning for nonlinear mediation and instrumental variable causal analysis Construction of causal networks is formulated as a continuous optimization problem Transformer and attention are used to encode decode graphics RL is used to infer large causal networks Use VAE GAN neural differential equations recurrent neural network RNN and RL to estimate counterfactual outcomes AI based methods for estimation of individualized treatment effect in the presence of network interference

World Translations Index, 1995 *Climate Disaster Preparedness* Dennis Del Favero, Susanne Thurow, Michael J. Ostwald, Ursula Frohne, 2024-05-02 As a result of global warming extreme events such as firestorms and flash floods pose increasingly unpredictable and uncertain existential threats taking lives destroying communities and wreaking havoc on habitats Current aesthetic technological and scientific

frameworks struggle to imagine visualise and rehearse human interactions with these events hampering the development of proactive foresight readiness and response This open access book demonstrates how the latest advances in creative arts intelligent systems and climate science can be integrated and leveraged to transform the visualisation of extreme event scenarios It reframes current practice from passive perception of pre scripted illustrations to active immersion in evolving life like interactive scenarios that are geo located Drawing on the multidisciplinary expertise of leaders in the creative arts climate sciences environmental engineering and intelligent systems this book examines the ways in which climate disaster preparedness can be reformulated through practices that address dynamic and unforeseen interactions between climate and human life worlds Grouped into four sections picturing narrating rehearsing and communicating this book maps this approach by exploring the emerging strengths and current limitations of each discipline in addressing the challenge of envisioning the unpredictable interaction of extreme events with human populations and environments This book provides a timely intervention into the global discourse on how art culture and technology can address climate disaster resilience It appeals to readers from multiple fields offering academic industry and community audiences novel insights into a profound gap in the current knowledge policy and action landscape

Remotely Innovative Tom Coughlan, David

Fogarty, 2025-07-23 In the near term the future will not belong to AI but it will belong to the people who understand AI and how to strategically leverage its advantages This book gives managers a new perspective on innovation and AI allowing them to seize the future As the pace of change has increased organizations have needed to invest in innovation initiatives to survive and thrive Up until now these models have focused on co location which is no longer an option in some cases and may not be necessary for all leaving organizations scrambling for options Following up on their work in *Managing at a Distance* Tom Coughlan and David Fogarty have developed this guide to help managers navigate the challenges of innovation in a world of hybrid and remote workers amidst the ever increasing use of AI They tackle questions such as the difference between creativity and innovation and how proximity or lack of it impacts teams and present strategic structural and measurement solutions to maximize the role of AI in successful innovation while not minimizing the people who make up organizations Platform agnostic this book will appeal to organizational leaders and managers who work with knowledge workers of any type as well as students and instructors in graduate business courses executive education and corporate training programs

Technology Applied Kevin Wooldridge, Stephen Ashurst, 2024-08-01

Technology love it or hate it is a critical component for nearly every modern business To the business leader or aspiring business leader the world of technology may sometimes appear to be confusing and obscure The language and nuance of software systems and IT projects is often a barrier to effective communication between different parts of an enterprise at just the time when it is most needed during a technology enabled project that is seeking to deliver business benefit This book sets out in clear non technical language and with practical real world examples the essential background to different aspects of information technology

hardware software data and interfaces their latest manifestations such as artificial intelligence and blockchain and how they all combine into a technology project Most importantly this book helps you the business leader understand the people behind the technology appreciate their perspective and their motivations and to enable you to ask the crucial questions that could transform your engagement to apply technology effectively
