Daim, Melinda Pizarro, Rajasree Talla, 2014-01-04 Across industries firms vary broadly on how they operate with respect to their Research Development R D activities This volume presents a holistic approach to evaluating the critical elements of R D management including planning organization portfolio management project management and knowledge transfer by assessing R D management from different sectors Featuring empirical research and in depth case studies from industries as diverse as medical imaging electric vehicles and cyber security the authors identify common features of successful R D management despite fundamental differences such as company size number of employees industry sector and the R D budget In particular they consider the implications for decision making with respect to resource allocation and investments such as site selection purchasing and cross departmental communication *Entrepreneurship in Singapore* Jürgen Rudolph, Robert Fitzgerald, Choon-Yin Sam, Ailson J. De Moraes, 2025-12-22 This book examines the characteristics and context of entrepreneurship in Singapore with reference to new interviews by Singaporean entrepreneurs and their firms The book is split into two sections The first section looks at Singapore from a comparative perspective It provides a historical overview of Singapore s business system examining the shift in Singapore government policy from the developmental state to encouraging entrepreneurship and innovation It also examines the current entrepreneurial ecosystem

highlighting the synergies of government support clean governance and robust venture capital and angel investment networks The second section of the book dives into a range of case studies of Singaporean entrepreneurs All interview chapters will adopt a similar structure to facilitate cross comparison and include pedagogical features such as summary boxes and guiding questions Major entrepreneurship theories such as effectuation alertness and resilience approaches are discussed and a thematic analysis of the primary data helps readers reflect on the narratives in light of these theories Useful for university teaching and of academic interest this book will be of relevance to students and researchers of entrepreneurship business innovation and Asia Pacific business

PC Magazine, 2006 The New Grey (Technologies of Mass Disruption) Jason Savitt, 2020-10-15 As technology advances we have to look beyond the finite thinking of a task will it be a human or a machine s responsibility We need to look at how we can use Artificial Intelligence A I to enhance the task so that it can be performed better faster at a lower cost and a higher quality without destroying the human contribution in the process This is where New Grey thinking comes into play it s when things are not black or white and they are grey The New Grey is a hybrid thinking on how to utilize the best features of A I while partnering it with the best aspects of human intellect There are already millions and there will be eventually billions of devices like smartphones smart speakers Internet of Things and other gadgets creating larger amounts of data at an exponential rate Existing and next generation Big Data technologies will struggle to capture store query analyze search and visualize all this information A I can be a game changer for businesses trying to process all this data or for whole new product categories Although It s not a magical buzzword that can be added to any product and will automatically improve it Although A I can make a product or service smarter when implemented correctly A I can also give organizations the ability to find trends in data that a human might not be able to see Although in the end we must never forget that it is the humans that are the consumers or benefactors of this information The whole purpose of this book is to explore the roles that humans and machines will play together over the coming years and decades Machines will be evolved by their creators to do more advanced operations in the near future The question is will we be ready for what it holds for us In the final chapter of this book it shows how to set up a quick demo using one of the most advanced Machine Learning algorithm i e GPT 2 that is publicly available to utilize or even use as a starting point for your own projects

Semiconductor Memories and Systems Andrea Redaelli, Fabio Pellizzer, 2022-06-07 Semiconductor Memories and Systems provides a comprehensive overview of the current state of semiconductor memory at the technology and system levels After an introduction on market trends and memory applications the book focuses on mainstream technologies illustrating their current status challenges and opportunities with special attention paid to scalability paths Technologies discussed include static random access memory SRAM dynamic random access memory DRAM non volatile memory NVM and NAND flash memory Embedded memory and requirements and system level needs for storage class memory are also addressed Each chapter covers physical operating mechanisms fabrication technologies and the main

challenges to scalability Finally the work reviews the emerging trends for storage class memory mainly focusing on the advantages and opportunities of phase change based memory technologies Features contributions from experts from leading companies in semiconductor memory Discusses physical operating mechanisms fabrication technologies and paths to scalability for current and emerging semiconductor memories Reviews primary memory technologies including SRAM DRAM NVM and NAND flash memory Includes emerging storage class memory technologies such as phase change memory

Computer Gaming World ,2004 Indian Gaming ,2007 *Online Education* Anthony G. Picciano,2025-08-12 Online Education is a comprehensive exploration of fully online and blended teaching platforms addressing history theory research planning and practice As colleges universities and schools around the world accelerate their adoption of large scale technologies and traditional class models shift into seamless digitally interactive environments critical insights are needed into the implications for administration and pedagogy Written by a major contributor to the field this book contextualizes online education in the past and present before analyzing its fundamental changes to instruction program integration social interaction content construction networked media policy and more This substantively revised second edition examines recent developments in services and implementation from the expansion of synchronous online learning experiences to the widened availability of generative artificial intelligence software while updating its research foundations and case studies A provocative concluding chapter speculates on the future of education as the sector becomes increasingly dependent on advanced AI systems massive cloud computing biosensing tools and robotics **PC World** ,2009 International Gaming & Wagering Business ,2008 **GameAxis Unwired** ,2005-03 GameAxis Unwired is a magazine dedicated to bring you the latest news previews reviews and events around the world and close to you Every month rain or shine our team of dedicated editors and hardcore gamers put themselves in the line of fire to bring you news previews and other things you will want to know **The Times Index, January -December 2012** ,2012 *Digit* ,2007 *Popular Science* ,2002 *Sound & Vision* ,2004 *Security* ,2006 **Educom Review** ,1995 Computing and communications in colleges and universities

Gaming in Academic Libraries Amy Harris,Scott E. Rice,2008 This book aims to show how librarians in colleges and universities of varying sizes populations and locations have successfully incorporated gaming into their libraries Introduction In an attempt to encompass the variety of ways games are being incorporated into libraries this book has been divided into three sections game collections and curricular support gaming as marketing and gaming as an information literacy tool
