

Financial Aid Package COMPARISON WORKSHEET

The amount of financial aid you receive will depend on the price of the school and the amount that you and your family are expected to contribute. The difference between the **total price of attendance** and your **expected family contribution** is your **financial need**. To meet this need, the financial aid administrator puts together a package from various sources—beginning with federal, state or institutional grants and scholarships and then with work study and loans. The total amount of aid will depend on the availability of funds as well as state and school policies.

Instructions

To determine the price of attendance, talk with admissions and financial aid administrators at the schools that interest you.

To determine your family's expected contribution, use our online **Financial Aid Estimator** (www.getreadyforcollege.org). While not a substitute for the Free Application for Federal Student Aid (FAFSA), the Estimator will give you a general idea about how much aid you may receive. The FAFSA still must be completed to apply for aid.

PRICE OF ATTENDANCE	Private College Example	School 1	School 2
Tuition & Fees (9 months)	\$20,000		
Room & Board	5,200		
Books & Supplies	718		
Personal Expenses	1,066

Comparison between India and Germany* Christopher Liguori,2014-04-28 Seminar paper from the year 2013 in the subject Leadership and Human Resources Miscellaneous grade 1 9 language English abstract Evolution and the urge to become increasingly independent are said to be vital characteristics of human beings and although different countries face different challenges there is one thing which they all share the wish to become successful Two countries which

are completely different to each other Germany and India have both tried their best to reach a highly respected status in the world They do not share many similarities and this makes it interesting to identify their respective challenges and find out their strengths and weaknesses Most countries participated in or were shaped by World War II India however did not face as severe challenges as Germany did after the war This global conflict did not mark a key turning point in India s history India s turning point in economic history came when Western countries realized the potential and benefits of its cheap labour force in the late twentieth century Up to that point India had largely been an agricultural based country and was not prepared for such a rapid economic growth and development Germany on the other hand had to deal with severe dam ages after World War II and this is said to be one of the major turning points in this country s history marking it until today Thanks to both financial aid by its partners e g Marshall Plan and the implementation of new immi gration laws in the 1960s Germany regained the trust of its partners and is now known to be the largest economy in Europe with a chancellor who is said to be the second most influencing person in the world The momentary financial crisis within Europe and the Western world as well as the need for the expansion of mostly IT related companies into India are interesting aspects which will be discussed in the framework of this essay
