Clashing Vulnerabilities, Disability and Conflict Don Kulick,Simo Vehmas,2025-11-10 This book is about how we might think about vulnerability what it is and how it operates by looking at cases where different kinds of vulnerabilities clash Disability is often portrayed as a vulnerability in itself and

disabled people are often labelled a prototypical vulnerable group This book disassembles that label by highlighting how vulnerabilities involving people with disabilities emerge and how they often conflict with other vulnerabilities the vulnerabilities of disabled students vs the vulnerabilities of under educated and harassed teachers for example Or the struggles for legitimacy that pit neuro divergent groups against people with chronic illnesses one casting doubt on the validity of the other Or the different uses of curb cuts for people in wheelchairs and people with visual impairments uses which sometimes clash Clashes like these illustrate the role that conflict plays in defining vulnerability and they lead us to think about how we might try to adjudicate between different claims of what can count as a vulnerability Providing new insight into power and non power ideology socioeconomic structures and the vicissitudes of disability as both a subject position and a lived experience this book will be of interest to scholars and students of disability studies anthropology and sociology policy and philosophy
