Movie Roadshows Kim R. Holston, 2012-12-13 This work examines a film distribution system paralleling the rise of early features and persisting until 1972 when *Man of La Mancha* was the final roadshow to require reserved seating. Synonymous with Hollywood's star-studded premieres, roadshows were longer and cost more than regular features, making the experience similar to attending the legitimate theater. Roadshows often epic in subject matter, played selected theaters usually only in major urban centers until demand decreased. By the 1960s, they were musical overtures, intermissions, entre-acte, and exit music, and souvenir programs for sale in the lobby. Throughout the text are recollections by people who attended roadshows, including actor John Kerr and actresses Barbara Eden and Ingrid Pitt. The focus is on roadshows released in the United States, but an appendix identifies international roadshows and films forecast but not released as roadshows. Included are plots, contemporary critical reaction, premiere dates, production background, and methods of promotion, i.e., the ballyhoo.

Box Office, 1958 *Development of the Global Film Industry* Qiao Li, Yanqiu Guan, Hong Lu, 2020-09-01 The global film industry has witnessed significant transformations in the past few years. Regions outside the USA have begun to prosper while non-traditional production companies such as Netflix have assumed a larger market share, and online movies adapted from literature have continued to gain in popularity. How have these trends shaped the global film industry? This book answers this question by analyzing an increasingly globalized business through a global lens. *Development of the Global Film Industry* examines the recent history and current state of the business in all parts of the world. While many existing studies focus on the internal workings of the industry, such as production, distribution, and screening, this study takes a big picture view encompassing the transnational integration of the cultural and entertainment industry as a whole and pays more attention to the coordinated development of the film industry in the light of influence from literature, television, animation, games, and other sectors. This volume is a critical reference for students, scholars, and the public to help them understand the major trends facing the global film industry in today's world. **Middleware 2012** Priya Narasimhan, Peter

Triantafillou, 2012-11-11 This book constitutes the refereed proceedings of the ACM IFIP USENIX 13th International Middleware Conference held in Montreal, Canada, in December 2012. The 24 revised full papers presented were carefully reviewed and selected from 125 submissions. The papers are organized in topical sections on mobile middleware, tracing and diagnosis, architecture and performance, publish/subscribe, middleware and big data, and cloud computing, availability, security, and privacy. **Tid-bits**, 1884 **Billboard**, 2006-12-23 In its 114th year, Billboard remains the world's premier weekly
