The Complete Guide to Using Google in Libraries Carol Smallwood,2015-03-06 From the Forward by Michael Lesk
Google has now developed services far beyond text search Google software will translate languages and support collaborative writing The chapters in this book look at many Google services from music to finance and describe how they can be used by students and other library users Going beyond information resources there are now successful collaboration services available from Google and others You can make conference calls with video and shared screens using Google Hangouts Writing documents with small numbers of colleagues often involved delays while each author in sequence took over the writing and made edits Today Google Docs enables multiple people to edit the same document at once An ingenious use of color lets each participant watch in real time as the other participants edit and keeps track of who is doing what If the goal is to create a website rather than to write a report Google Sites is now one of the most popular platforms Google is also involved in social networking with services such as Google Other tools view social developments over time and space The Google Trends service for example will show you when and where people are searching for topics Not surprisingly searches for swimwear peak in June and searches for snowmobile peak in January The Complete Guide to Using Google in Libraries Volume 2 Research User Applications and Networking has 30 chapters divided into four parts Research User Applications Networking Searching The contributors are practitioners who use the services they write about and they provide how to advice that will help public school academic and special librarians library consultants LIS faculty and students and technology professionals *Teaching Internet Basics* Joel A. Nichols,2014-10-14 Perfect for public librarians instructional librarians technology and digital resource specialists and library training specialists this book is an essential resource for digital literacy instruction According to Pew research published in 2013 two thirds of public libraries report that technology training is important in their communities and that 86 5 percent of public libraries offer classes on general Internet use Despite the ubiquitous nature of the Internet and digital media digital literacy instruction remains one of the major job duties of 21st century librarians In this book author Joel Nichols helps you to close the digital divide and make a difference in increasing information and digital literacy for your patrons offering tested content and methods that will make it easier for librarians to provide effective digital literacy instruction With its discussion of key Internet safety and security topics for inexperienced Internet users this hands on practical guide is what you need for approaching and solving these digital literacy instructional challenges This manual serves librarians who are teaching computer and Internet basics to patrons with little or no experience by providing a packaged solution with ready made training scripts and practical examples that teach basic digital literacy techniques The guide also fills any gaps in your knowledge or experience and gets you up to speed with the latest digital information needs of users in order to form a solid foundation from which to provide instruction with the supplied curriculum **Making the Most of the Cloud** Robin Hastings,2013-11-26 Cloud computing can be confusing the

number and types of services that are available through the cloud are growing by the day Making the Most of the Cloud How to Choose and Implement the Best Services for Your Library takes you through some of the more popular cloud services in libraries and breaks down what you need to know to pick the best one for your library Some of the cloud services covered are EmailIntegrated Library Systems ILS BackupsProject ManagementGraphics Softwareand much more With chapters covering cloud topics from the definition of a cloud to security in the cloud this book will be beneficial for any library which is thinking of moving their services outside their organization

Learning R and Python for Business School Students Yuxing Yan,2022-11-04 This book provides a guide for business school students individual investors and business professionals to learn R and Python two open source programming languages It is unique since it allows the reader to learn programming in an R assisted learning environment The book provides 15 weeks worth of teaching material for the reader Collection Management in the Cloud Kayla Kipps,Allison Kaiser Jones,2022-03-11 As remote work has become routine cloud based technology tools have become increasingly necessary to communicate with other library staff and with faculty and staff to continue providing seamless and uninterrupted access to library resources and collections for our campus community Cloud based technology tools such as Google Forms and Google Sheets are used to gather faculty requests for collection development tools such as Tableau are used to illustrate material budget balances and platforms such as Trello have been adopted to track subscription renewal cycles and manage other projects This guide discusses the benefits of using these powerful cloud based and little to no additional cost technology tools through the lens of a particular area in librarianship such as documentation data and project management communication data storage and data visualization While the real world examples provided throughout focus on technical services staff operations specifically acquisitions and electronic collection management each tool s features and use cases are transferable among all areas of librarianship This guide provides insights into how collaborative dynamic and accessible these cloud based solutions are for a technologically shifting workplace as well as considers the challenges to adopting cloud based solutions such as administrative buy in aversion to change and steeper learning curves as well Readers will gain practical experiential examples that have been instrumental in creating efficiencies in collection management workflows for technical services staff The use cases illustrated exemplify enhancements that librarians can incorporate into their own collection management practices to further engage with their colleagues their patrons and their larger communities more effectively and efficiently
