The Global Film Market Transformation in the Post-Pandemic Era Qiao Li, David Wilson, Yanqiu Guan, 2023-05-04 This book reviews the development and performance of the global film industry during the COVID-19 pandemic and examines new trends in film production, distribution, and consumption through a global lens. The COVID-19 pandemic has had a substantial impact on the global film industry since the beginning of 2020. There has been significant transformation in terms of film production, distribution, and consumption. Hollywood, like many national cinemas across the globe, has suffered the most significant impact at all levels: the interruption of new film productions, shutdowns of movie theatres in many countries, and delays in the release of new films among them. Many movies made for cinemas were forced to move from release in theatres to various streaming platforms, and nontraditional production companies continued to grow their market share. This book places the global film industry in a post-pandemic context. It provides detailed analyses of specific systems of film production, distribution, and consumption in national cinemas as well as in Hollywood, while also engaging with the key theoretical and methodological questions from the film studies literature. This volume is a critical reference for students and scholars of film studies and general readers who are interested in the new trends and transformation of the global film industry in a post-pandemic era. Binge Times Dade Hayes, Dawn Chmielewski, 2022-04-19 The first comprehensive account of the biggest wake-up call in the history of the entertainment business: the pivot to streaming. Go inside a disparate group of media and tech companies—Disney, Apple, AT&T, WarnerMedia, Comcast, NBCUniversal, and well-funded startup Quibi—as they scramble to mount multi-billion-dollar challenges to Netflix. After spotting Netflix and the deep-pocketed Amazon Prime Video a decade's head start, rivals from the tech and start-up realm—Apple, Quibi, and traditional media—Disney, WarnerMedia, NBCUniversal—all decided to move mountains to enter

the streaming game At a cost of billions each went after their own piece of the market launching five new services in a seven month span And just as the derby was heating up the coronavirus pandemic arrived a black swan event bringing short term benefits but also stiff challenges The battle for streaming supremacy may end up having more than one winner but the cost and disruption to decades old business models have also produced a lot of losers Binge Times reveals the true costs of the vision quest as companies are turned inside out and repeatedly redraw their org charts and strategic plans Stretching from Silicon Valley to Hollywood to Wall Street it is a mesmerizing character rich tale of hubris and ambition as the fate of a century old industry hangs in the balance
