Systematic Instruction of Functional Skills for Students and

Adults with Disabilities Keith Storey, Craig Miner, 2017-02-27 This book provides an overview of systematic instructional strategies and is written in a format so that teachers and other service providers can immediately put the information to use. It specifically focuses upon systematic instruction for individuals with disabilities school age and adults and is generic across age groups as well as disability labels. The book focuses on improving instructional practices for students and adults with disabilities. Practitioners may understand the importance of placing individuals in different settings e.g. inclusive classrooms supported employment sites but not understand how to improve their skills once they are in that setting. This book is intended to give teachers and other service providers the instructional skills for improving the skills of the individuals that they are serving. The most unique feature of the text is that it is written specifically for practitioners in the field teachers and adult service providers as well as those in training rather than being written for other academics. An advantage of this book is that those preparing teachers and others can easily use it in methods courses as it covers instructional methodology that is seldom covered in detail in most texts. College instructors will find the book a good choice for their classes based upon the consistent format throughout the book the readability of the book for students the comprehensive coverage of systematic instruction and the direct applicability to applied settings. Others providing instruction supervision and training to direct service providers will find this book useful such as those working in schools as well as those in transition and adult service settings.

Reproducible Little Books for Sight Words, Grades K-2 Patricia Tilton, 2004 Help students develop word recognition skills and fluency through the use of high frequency words. Students who automatically recognize sight words can devote more attention to comprehension.

Teaching Students with Severe Disabilities David L. Westling, Lise Fox, 2004 Written in a way that makes the most complex findings of research understandable and usable in the real educational world this book offers comprehensive coverage of all of the issues that are pertinent to teaching students with severe disabilities. The authors clearly and completely address both methodology and curriculum presenting topics in the order in which a teacher would approach them prior considerations planning and assessment general instructional procedures and finally procedures targeted to learners with specific disabling conditions. In addition they pay thoughtful attention to assessment the role of paraprofessionals and multicultural concerns. For teachers and future teachers of students with severe multiple disabilities.
