Marxist founders of the NAACP and their impact on the Black community's present status at the top of our nation's misery index. It highlights the decades of anti-Black legislation supported by liberal Black leaders who prioritized class over race in their zeal for the promises of socialism. Their anti-Black legislation dating back with the 1932 Davis Bacon Act continues today to suppress inter-community Black capitalism, federal construction-related Black employment work and job experience for Black teenagers, quality education access for urban Black children, and the role of Black men as leaders within the family unit. Liberalism or How to Turn Good Men into Whiners, Weenies, and Wimps highlights the strategy used in 1910 to inject the atheist ideology of socialism into a once enterprising, self-sufficient, competitive, and proud Christian Black community. A portion of that community, the conservative Black middle class, is positioned to pull our nation back from this abyss. Americans can ensure that the century-long sacrifice of lost hopes, dreams, and lives made by the proud, courageous, patriotic capitalist Christian-based, self-sufficient education-seeking Black community of the early 1900s was not in vain, but only if we choose to learn lessons from those past Black generations.

The Entrepreneurial Instinct: How Everyone Has the Innate Ability to Start a Successful Small Business Monica Mehta, 2012-08-21. Unlock your innate entrepreneurial talent. Winner of a 2013 Small Business Book Award, Startup Category. We've all heard stories of the dropout that makes billions, a triumph relying more on luck than skill, and never to be repeated. In real life, successful entrepreneurs take classes, write business plans, and map out every contingency. But if the stories are such a fluke, why do we hear them over and over again? In *The Entrepreneurial Instinct*, sought-after small business expert Monica Mehta looks past the rags-to-riches stories to explore the role of mind, behavior, and brain chemistry in our ability to be successful entrepreneurs. Interviews with entrepreneurs reveal the traits and habits that allow them to thrive. Groundbreaking insight from neuroscience and psychology experts uncovers the scientific explanations behind self-made mavericks, seemingly innate knack. More important, Mehta explains how you can use these discoveries to replicate their success by taking rewarding risks, overcoming fears, and failure, thriving in the face of ambiguity, using your innate talents to find financial independence, and make millions. *The Entrepreneurial Instinct* weaves together the incredible self-made stories of the founders of CLIF Bar, Carol's Daughter, Marquis, Jet, Skip Hop, KIPP Charter Schools, J Brand, Tahari, Apple, Paul Mitchell Systems, and Dogfish Head Beer. None of these anecdotes involves higher education, meticulous planning, or years of gathering seed money. These stories are about seemingly average people who possessed a keen understanding of how their minds worked and used that knowledge to their advantage. In a time when the prospect of unemployment or the loss of life savings is high, the need to seize control of your own destiny is greater than ever.

The Entrepreneurial Instinct offers much needed techniques for using our innate capabilities to make more with less Now is the time to learn what you re made of Now is the time to make your move Now is the time to tap into your Entrepreneurial Instinct and create your own story of small business success Praise for The Entrepreneurial Instinct Monica Mehta s book is a must read for anyone aspiring to excel by challenging conventional wisdom and rolling with the punches to do what comes naturally Ajay Banga President and CEO MasterCard Worldwide Illuminating and rich case based insights into the physiology that drives entrepreneurial risk taking and decision making Ian MacMillan professor of Entrepreneurship Director of Sol C Snider Entrepreneurial Research Center The Wharton School I couldn t put this book down The author does an outstanding job drilling down to unearth exactly what allows some to risk life and limb to create something of value a feat that should ignite interest in many Highly recommended reading Robert DiRomualdo former Chairman and CEO Borders Group former President and CEO Hickory Farms Chairman Naples Ventures Director Ulta Beauty This book gets rid of the last excuse of the would be entrepreneur fear By showing how you can work with your brain chemistry rather than against it The Entrepreneurial Instinct helps you take smarter risks with less angst It obliterates a lot of the conventional wisdom around entrepreneurship and shows what it really takes to succeed Kimberly Weisul Editor at Large Inc magazine and cofounder One Thing New I found this book absolutely fascinating The science behind success is rarely discussed and certainly not in such an entertaining relatable way Great book read it Larry Winget author of five New York Times and Wall Street Journal bestsellers including Shut Up Stop Whining and Get a Life
