Level 2 Powerpoint 2 1 Pearson Qualifications:

EBOOK: Beyond Mass Higher Education: Building on Experience Ian McNay, 2005-11-16 What are the key elements of mass higher education How does mass higher education affect students and staff What are the policy pedagogic and management issues that need to be addressed More is now expected of higher education provision It has to meet demands for expansion excellence diversity and equity in access and assessment teaching and research as well as entrepreneurial engagement with the world outside Thirty years ago Martin Trow wrote of higher education systems moving from elite provision through a mass system to universal levels of access The UK is now approaching such universal levels Scotland has already reached them It is nearly fifteen years since Trow's mass threshold was reached Despite being on the brink of universal provision there is still no clear picture of what a mass system should look like This collection looks forward to the next decade of higher education and identifies strategic issues that need to be tackled at institutional and management levels It considers how far the higher education system has adapted to respond to the requirements of a mass and universal system rather than struggling to sustain an elite system with mass participation Beyond Mass Higher Education is key reading for those leading and managing universities and colleges as well as higher education researchers and policy makers Contributors John Brennan Centre for HE Research and Information Grainne Conole University of Southampton Stephen Court AUT Jim Gallacher Glasgow Caledonian University Peter Knight The Open University Carole Leathwood London Metropolitan University Brenda Little Open University Lisa Lucas University of Bristol Ian McNay University of Greenwich Robin Middlehurst University of Surrey Bob Osborne University of Ulster Richard Pearson Institute for Employment Studies Wendy Saunderson University of Ulster Michael Shattock Institute of Education London Celia Whitchurch King's College London Mantz Yorke Liverpool John Moores University

The Principles and Practice of Nurse Education Francis M. Quinn, 2000 This book now in its fourth edition has been updated to include material focused on evidence based practice Covering the complete spectrum of education as applied to nursing and health care professions this book maintains the blend of theoretical principles and practical applications that has proved successful over the preceding three editions Among the important developments discussed are the replacement of UKCC and the four National Boards with a new Nursing and Midwifery Council the initiative to establish the National Institute for Clinical Excellence and the move to incorporate clinical effectiveness into the clinical governance framework Frank Quinn brings together all the major changes that apply to educators within the National Health Service making this essential textbook an authoritative source of guidance up to date information and reference

Emerging Trends in Digital Era Through Educational Technology Dr. Manichander T.,
Debates in Geography Education Mark Jones, David Lambert, 2017-09-07 Debates in Geography Education encourages early career teachers experienced teachers and teacher educators to engage with and reflect on key issues concepts and debates It aims to enable readers to reach their own informed judgements with deeper theoretical knowledge and

understanding The second edition is fully updated in light of the latest research policy and practice in the field as well as key changes to the curriculum and examination specifications Expert contributors provide a range of perspectives on international historical and policy contexts in order to deepen our understanding of significant debates in geography education Key debates include geography s identity as an academic discipline what constitutes knowledge in geography places and regional geography what it means to think geographically constructing the curriculum how we link assessment to making progress in geography the contribution of fieldwork and outdoor experiences technology and the use of Geographical Information school geography and employability understanding the gap between school and university geography evidence based practice and research in geography education The comprehensive rigorous coverage of these key issues together with carefully annotated selected further reading will help support and shape further research and writing Debates in Geography Education is a key resource that is essential reading for all teachers and researches who wish to extend their grasp of the place of geography in education Mark Jones is Senior Lecturer in Education at the University of the West of England Bristol UK David Lambert is Professor of Geography Education at UCL Institute of Education London UK
