Ai Tools Compare:

Digital Transformation in Education and Artificial Intelligence Application Tomislav Volarić, Boris Crnokić, Daniel Vasić, 2024-07-02 This book constitutes selected papers presented during the Second International Conference on Digital Transformation in Education and Artificial Intelligence Applications MoStart 2024 held in Mostar Bosnia and Herzegovina in April 2024 The 17 papers were selected from the 32 submissions The proceedings cover a broad range of topics computer vision natural language processing and the latest advancements in the digital transformation of education Notably the application of artificial intelligence the incorporation of gamification and robotics into learning processes and innovative technologies such as IoT have been thoroughly explored *Frontier Research on Artificial Intelligence and Radiomics in Neurodegenerative Diseases* Shi-Nan Wu, Wencai Liu, Qi Zhang, Fuqing Zhou, 2025-11-13 As the global population ages the prevalence of neurodegenerative diseases is rising posing significant challenges to healthcare systems Artificial intelligence AI and radiomics are emerging as powerful tools in this domain offering innovative methods for diagnosing monitoring and treating these conditions Radiomics enables the extraction of quantitative features from medical images while AI excels at analyzing large datasets and identifying patterns that might be imperceptible to the human eye The integration of these technologies particularly in neuroimaging holds the potential to revolutionize our understanding and management of neurodegenerative diseases The goal of this research is to address the complex challenges posed by neurodegenerative diseases through the application of AI and radiomics Specifically we aim to 1 Identify and validate novel imaging biomarkers for the early detection and monitoring of neurodegenerative disorders 2 Develop AI driven predictive models to assess disease progression and treatment outcomes enabling personalized healthcare approaches 3 Utilize machine learning and database mining techniques to analyze extensive health datasets uncovering new insights and correlations specific to neurodegenerative diseases 4 Evaluate the clinical utility of these technologies in enhancing diagnostic accuracy improving patient outcomes and optimizing healthcare resources **Proceedings of the 2025 4th International Conference on Social Sciences and Humanities and Arts (SSHA 2025)** Sun Jing, Sun Hefei, Liu Shuli, Ren Xianpin, Cuneyt Birkok, 2025-07-22 This is an open access book With the progress of social civilization social science and its research are becoming more and more important Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and

excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions And by reacting to today s increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc

Building Trust in the Generative Artificial

Intelligence Era Joanna Paliszkiewicz, Jerzy Gołuchowski, Magdalena Mądra-Sawicka, Kuanchin Chen, 2025-06-27 In an era where generative artificial intelligence AI is reshaping industries and daily life trust has become a cornerstone for its successful adoption and application Building Trust in the Generative Artificial Intelligence Era Technology Challenges and Innovations explores how trust can be built maintained and evaluated in a world increasingly reliant on AI technologies Designed to be accessible to a broad audience thi book blends theoretical insights with practical approaches offering readers a comprehensive understanding of the topic This book is divided into three parts The first part examines the foundations of trust in generative AI highlighting trends and ethical challenges such as greenwashing and remote work dynamics The second part provides actionable frameworks and tools for assessing and enhancing trust focusing on topics like cybersecurity transparency and explainability The final section presents global case studies exploring university students perceptions of ChatGPT generative AI s applications in European agriculture and its transformative impact on financial systems By addressing both the opportunities and risks of generative AI this book delivers groundbreaking insights for academics professionals and policymakers worldwide It emphasizes practical solutions ensuring readers gain the knowledge needed to navigate the evolving technological landscape and foster trust in transformative AI systems

Ethical and Social Impacts

of Information and Communication Technology Isabel Alvarez, Mario Arias-Oliva, Adrian-Horia Dediu, Nuno Silva, 2025-09-05 This book constitutes the refereed proceedings of the 22nd International Conference on Ethical and Social Impacts of Information and Communication Technology ETHICOMP 2025 held in Lisbon Portugal during September 17 19 2025 The 51 full papers presented in this volume were carefully reviewed and selected from 165 submissions The papers are organized in the following topical sections Ethics Society Education Systems and Security

Pathways to International

Publication in the Social Sciences Insung Jung, 2025-01-20 This guide offers a clear step by step approach for graduate students and early career researchers especially non native English speakers seeking to publish in international journals in the social sciences It provides practical strategies for preparing submitting and refining research papers helping researchers

navigate the challenges of academic publishing With 21 chapters the guide covers every stage of writing revising and submission while addressing the unique obstacles faced by non native English speakers The guide helps researchers identify reputable journals avoid predatory ones and use digital tools to meet international standards It then provides a structured roadmap that simplifies the publication process covering steps like journal selection writing compelling abstracts and drafting the methods and results sections By the end of the guide it is expected that researchers will have a strong first draft or ideally a submission ready manuscript The guide also addresses language barriers cultural differences and unfamiliarity with international conventions It offers practical solutions for improving English writing utilizing digital tools responding to peer reviews and managing revisions effectively It emphasizes ethical guidelines like avoiding plagiarism properly crediting co authors and ensuring research transparency to help researchers meet global standards Unlike other research guides this one is specifically tailored to early career and non native English researchers working in social science disciplines It offers practical strategies and real world examples to equip researchers and teachers of research methods and academic writing with a framework for achieving publishing success in global academia

Beyond Code Daniel Plate,James Hutson,2025-09-02 AI powered coding tools are revolutionizing software development transforming programming from a specialized skill into an accessible educational practice across disciplines This book investigates how tools such as Cursor AI GitHub Copilot and Replit s Ghostwriter are dismantling traditional barriers to entry for learners particularly those from non STEM backgrounds by enabling natural language code generation intelligent debugging and interactive project based learning Bridging the gap between theoretical instruction and practical application the book serves as both a guide and a critical framework for integrating generative AI into curricula It highlights how these tools expand the boundaries of programming education by supporting interdisciplinary applications from literary analysis to creative writing thereby making coding relevant and actionable for students in the humanities and beyond The book equips educators with the tools and strategies necessary to incorporate AI assisted programming into diverse academic contexts by offering lesson plans and adaptable project models This resource is essential for instructors seeking to demystify coding promote inclusivity in technical learning and reimagine the role of software literacy in the twenty first century classroom

Adobe Acrobat 4.0 ,1999 This second edition covers additional security features in Acrobat 4 0 that were previously available only to Windows users but are now available for Macintosh as well The authors focus on Web Capture the ability to create PDF files from Web sites Digital Signatures allows for electronic sign off of shared files Compare Pages the ability to open more than one file in separate windows Send Mail the ability to automatically attach a PDF file to an email document and Web Buy a new tool for sharing files that require a key to access them
