Moreover, as the biology of mental illnesses is gradually and inexorably being elucidated, the overlap between physical illnesses and mental illnesses has become even more apparent. These observations set the stage for readers of this issue of *Psychiatric Clinics* in which a variety of articles are presented from all aspects of medicine from emergency mental health to how burn patients heal and cope with the physical and mental outcomes to coverage of issues such as prolonged stay in the intensive care unit, comorbidities in the elderly, food allergies, depression, and other common primary care conditions, and childhood diabetes. A primer on interviewing techniques and role play is presented along with the role of nurses who cross both mental and physical aspects of healthcare and the essential role of a supportive family to the interdisciplinary team.

The Doctorate in Mental Health Robert S. Wallerstein, 1991-07-31. The Doctorate in Mental Health (D M H) program was an experiment inspired by the proposal and advocacy beginning in the 1950s of the eminent psychoanalyst Lawrence Kubie of a more rational and efficient pattern of training for dynamically oriented psychotherapists, drawing on the relevant aspects of medical, psychiatric, and psychological training. Though the inspiration for the program remained centered in psychoanalytic, dynamic psychiatry, social science, and biological components, the curriculum was conceived as preparing the D M H to practice in community mental health settings and, most controversially, to prescribe and administer psychotropic drugs autonomously. Unfortunately, legislative licensure of the new degree was never attained, and the aspiration to create a new profession failed. Why did it fail? This book and its myriad of contributors attempt to grapple with this question and combine to produce a detailed examination of the rise and demise of a new profession and its infrastructure.

Contents: Section I: The Historical Evolution: Rise and Fall of the D M H Program; Section II: The Personal Evolution: Creation of a New Professional Identity; Section III: The World Surrounding the Program; Section IV: Analysis and Overview.
