Location Awareness in the Age of Google Maps Rebecca Noone, 2024-07-12 Location Awareness in the Age of Google Maps explores the mundane act of navigating cities in the age of digital mapping infrastructures Noone follows the frictions routing through Google Maps categorising and classifying of spatial information Complicating the assumption that digital maps distort a sense of direction Noone argues that Google Maps location awareness does more than just organise and orient a representation of space it also organises and orients imaginaries of publicness selfsufficiency legibility and error At the same time Location Awareness in the Age of Google Maps helps to animate the ordinary ways people are challenging and refusing Google Maps vision of the world Drawing on an arts based field study spanning the streets of London New York London Toronto and Amsterdam Noone s encounters of asking for directions open up lines of inquiry and spatial scores that cut through Google s universal mapping project Location Awareness in the Age of Google Maps will be essential reading for information studies and media studies scholars and students with an interest in embodied information practices critical information studies and critical data studies The book will also appeal to an urban studies audience engaged in work on the digital city and the datafication of urban environments *Understanding Government Information* Connie Hamner

Williams, 2017-10-30 This book demonstrates how government information can be used to engage students through inquiry and project based activities thereby providing opportunities for creative investigation and discovery Many government agencies and institutions provide educators with curricula lesson plans data and direction all of it free But to access this largely hidden world of government information one needs an understanding of how this government information is organized and knowledge about how to best utilize the finding aids databases and other search mechanisms to help guide effective research This guidebook shows you how to locate high quality effective lesson plans developed by the nation s best educators access reliable government data and find curated lists of free government sources that are theme based and reference national standards in social studies and health *Understanding Government Information A Teaching Strategy Toolkit for Grades 7 12* is ideal for middle school and high school librarians and teachers in all subject areas public youth services librarians as well as parents teaching their students in home school based programs You ll learn how to access expert developed lesson plans documents images and other primary sources along with suggested activities The book also includes a teacher toolkit that details strategies for lessons and student activities that can be used across the curriculum

Open Electronic Data Capture Tools for Medical and Biomedical Research and Medical Allied Professionals Ashish Pundhir, Amit Kumar Mehto, Abhishek Jaiswal, 2024-03-21 *Open Electronic Data Capture Tools for Medical and Biomedical Research and Medical Allied Professionals* explains the step by step of collecting and treating research data in a didactic manner The book discusses four freely available data capture tools whose common feature is data collection and entry being done simultaneously rather than separately thus saving resources and minimizing potential errors It highlights

the comparative features of each data capture tool helping readers to understand the advantage and disadvantage of each one to decide which tool can be used to fulfill their needs This is a valuable resource for researchers students and members of the biomedical and medical fields who need to learn more about data mining and management to improve the quality of their research work Explains how to use open electronic data capture tools to collect and treat research data Describes step by step how to use these tools with practical examples in illustrative manner by using screenshots tables and flow charts for easy understanding Presents the content in a didactic manner to facilitate real world applicability for any research need
