Prices, Production, and Inventories Over the Automotive Model Year Adam Copeland, 2005 This paper studies the within model year pricing and production of new automobiles Using new monthly data on U S transaction prices we document that for the typical new vehicle prices typically fall over the model year at a 9.2 percent annual rate Concurrently both sales and inventories are hump shaped To explain these time series we formulate a market equilibrium model for new automobiles in which inventory and pricing decisions are made simultaneously On the demand side we use micro level data to estimate time varying aggregate demand curves for each vehicle On the supply side we solve a dynamic programming model of an automaker that while able to produce only one vintage of a product at a time may accumulate inventories and consequently sell multiple vintages of the same product simultaneously The profit maximizing pricing and production strategies under a build to stock inventory policy imply declining prices and hump shaped sales and inventories of the magnitudes observed in the data Further roughly half of the price decline is driven by inventory control considerations as opposed to decreasing demand Abstract [The Iron Age](#), 1896

Contextual Pricing: The Death of List Price and the New Market Reality Robert Docters, Michael Barzelay, John G. Hanson, Cecilia Nguyen, 2011-10-19. A REVOLUTIONARY NEW PERSPECTIVE ON HOW PRICING REALLY WORKS. Contextual Pricing delivers a knock-out punch to complacent and low-return pricing approaches. This book is full of intriguing, fresh insights which will expand your perspective on what is possible in maximizing revenue from your company's products and services. Mark Greatrex, Chief Marketing Officer, Cox Communications and former SVP, Global Still Beverages, The Coca-Cola Company. To effectively price, managers must understand market context, the frame of reference for buyers. Context is far more important than the usual measures of price variation. I strongly recommend this readable and useful book to any business leader who suspects his or her company is falling short of achievable revenues. Dave Calhoun, Chairman and CEO, Nielsen Company and former Vice Chairman, General Electric Company. About the Book: A few leading companies have jettisoned ideas about pricing that other companies believe are indispensable. The result has been superior performance against competitors who persist in a simplistic 1990s belief in value. Contextual Pricing describes how buyers are influenced by comparison points and contextual messages more than by actual price levels. Identical products can sell at radically different
