Fire Team Wedge – The wedge is the basic formation for the fire team. The interval between soldiers is normally 10 meters; however this distance is dependent upon terrain. The team leader modifies the wedge when terrain or poor visibility makes control difficult (See Figure 11-1).

Figure 11-1. Fire Team Wedge.

Fire Team File – Team leaders (TL) employ the file when the wedge is impractical due to restrictive terrain or limited visibility. Like the wedge, the interval between soldiers is normally 10 meters; however this distance is dependent upon terrain. The file is easy to control, affords fast movement, and while allowing excellent security to the flanks, affords little to the front and rear (See Figure 11-2).

Figure 11-2. Fire Team File.

Fire Team Line – The line is more difficult to control, affords slower movement, allows little security to the flanks, but offers maximum security and potential fire power to the front and rear (See Figure 11-3).
