Hiring Manager
XYZ, Inc.
45 Business Street
Jobville, USA 01234

Dear Hiring Manager: XYZ, Inc.

I'm writing to you in regards to your associate engineer position which was brought to my attention through ~~pure-fucking-magic~~. This posting calls for a driven student of engineering who thrives in a fast paced and dynamic workplace. My tenacious passion for aerospace, embedded electronics, and avionics makes me an excellent fit for consideration within XYZ, Inc.

As an engineer, I am constantly in a position to learn and develop new ideas. To have the opportunity to be exposed to engineering challenges and be able to provide fresh perspective by applying the technical and design skills I have acquired is extremely exciting. My coursework has given me the knowledge to be effective in designing and working with electrical systems and my previous projects, work experience, and engineering endeavors allow me the skills and mentality for complex problem solving.

My prior work experience validates my work ethic, highlights my leadership skill, and emphasizes my abilities in a technical environment. I was most recently employed with Small Automotive, Inc. as an electrical engineering intern working as team lead and technical reference for internal product development. I have many accomplishments from my time at Small Automotive, Inc:

- Lead a team of three to develop a flexible and user-friendly piece of test and validation equipment.
- Developed and characterized custom electrical hardware and firmware solutions for sensing, communication, and digital processing.
- I was regularly commended for both my technical and leadership abilities by the director of my department.

My experiences at Small Automotive, Inc. were only possible through overcoming the unique challenges that placed me in a leadership role as a new and unproven electrical engineering intern. The lessons learned in small-scale system development from this internship compliment and fill the voids from my experiences working with Big Defense Co. on massively complex radar and missile defense systems.

Included with this letter is a copy of my resume and an application to the position. If you wish to contact me to set up an interview or other inquiry I can be reached at the given email address or phone number. Thank you very much for taking the time to review my application, I hope to hear from you soon for consideration in this position within XYZ, Inc.

Respectfully Yours,

Fancy Scanned Signature
