Mobile and Rapidly Assembled Structures IV N. De Temmerman, C. A. Brebbia, 2014-06-11 Structures that move in the course of normal use or which have to be assembled or erected rapidly on a relatively unprepared site offer a particular challenge to the designer The interaction between the structure and the mechanism by which it moves is essential in these cases The speed of assembly what this means in terms of logistics materials and cost is a major factor in many such structures Mobile and rapidly assembled structures play a major role in disaster mitigation and temporary accommodation They are of primary importance in many military as well as civilian applications and are widely used for rescue and maintenance services Their importance continues to grow in contemporary society where speed of response is of primary importance Also in many cases their reversible deployment and potential reuse can lead to a lower economical and or ecological impact providing a more sustainable solution There are common problems such as the efficient design of assembly joints the resistance to damage of the membrane and metal cladding crashworthiness and the limits of serviceability Some areas of the subject are already well documented but knowledge is fragmented and there is little design guidance available in the form of textbooks data sheets or codes of practice The interaction between morphology kinematic behaviour and structural performance typical for these structures poses real challenges in terms of design and successful realisation This multi disciplinary proceedings volume contains papers presented at the fourth International Conference on Mobile Adaptable and Rapidly Assembled Structures Topics covered include Rapidly erected bridges and transportable bridges Disaster mitigation structures Temporary structures and dwellings Deployable systems and structural mechanisms Tensegrity and reciprocal frames Origami based structures Inflated and air supported structures and membrane shelters Rapidly assembled kit of parts systems Leisure structures demountable grandstands and scaffolding systems Mobile inspection platforms Folding and telescopic masts and gangways Tower cranes and mobile lifting apparatus Trackways and prefabricated paving for roads and airfields Protective structures Rapid repairs of structures Structures in adverse conditions Spacecraft structures Construction and repair

Mathematics for Today's Consumer Jack Price, 1982 Teaching Today's Mathematics in the Middle Grades Art Johnson, Kit Norris, 2006 Teaching Today's Mathematics in the Middle Grades provides current and future middle school teachers with the mathematics content essential concepts methodology activities and resources to both learn and teach mathematics in grades 5 to 8 The authors focus exclusively on the middle school learner and the middle school mathematics curriculum Although each chapter discusses foundational mathematics concepts from earlier grades and previews topics that will follow the middle grades the emphasis is on the middle school This selective focus allows for proper development of critical topics in the middle school such as proportionality algebraic thinking and the integral role of manipulatives Assessment practices and problem solving are also emphasized from the viewpoint of effective practices for middle school students Unique Features React and Reflect features prompt classroom discussions by asking the

reader to think independently regarding a statement issue or concern Try This features ask the reader to solve a problem first or extend the current discussion by working on an extension of a problem By completing the problem first teachers are putting themselves in the place of their students helping the teacher discover first hand common misconceptions Numerous exercises and activities appear at the end of each chapter to reinforce student understanding of various topics and ensure mastery of the mathematics content The NCTM Principles and Standards are emphasized throughout the book beginning with a discussion in Chapter 1 Each of the content chapters 6 11 opens with the relevant NCTM content standards for that chapter In addition marginal icons highlight areas within the text in which the NCTM process standards are discussed Reviewers rave From the content organization and approach it is evident that the authors have years of teaching experience This gives the text authority Marina Krause California State University Long BeachThe authors do an excellent job of presenting in sequential order essential concepts methodology activities and technological resources essential to assist the beginning math teacher in preparing to teach in the middle school program Gerald Jarmon North Carolina Central University
