Byzantine Art and Renaissance Europe Angeliki Lymberopoulou,Rembrandt Duits,2016-12-05 Byzantine Art and Renaissance Europe discusses the cultural and artistic interaction between the Byzantine east and western Europe from the sack of Constantinople by the Fourth Crusade in 1204 to the flourishing of post Byzantine artistic workshops on Venetian Crete during the fifteenth and sixteenth centuries and the formation of icon collections in Renaissance Italy The contributors

examine the routes by which artistic interaction may have taken place and explore the reception of Byzantine art in western Europe analysing why artists and patrons were interested in ideas from the other side of the cultural and religious divide In the first chapter Lyn Rodley outlines the development of Byzantine art in the Palaiologan era and its relations with western culture Hans Bloemsmas then re assesses the influence of Byzantine art on early Italian painting from the point of view of changing demands regarding religious images in Italy In the first of two chapters on Venetian Crete Angeliki Lymberopoulou evaluates the impact of the Venetian presence on the production of fresco decorations in regional Byzantine churches on the island The next chapter by Diana Newall continues the exploration of Cretan art manufactured under the Venetians shifting the focus to the bi cultural society of the Cretan capital Candia and the rise of the post Byzantine icon Kim Woods then addresses the reception of Byzantine icons in western Europe in the late Middle Ages and their role as devotional objects in the Roman Catholic Church Finally Rembrandt Duits examines the status of Byzantine icons as collectors items in early Renaissance Italy The inventories of the Medici family and other collectors reveal an appreciation for icons among Italian patrons which suggests that received notions of Renaissance tastes may be in need of revision The book thus offers new perspectives and insights and re positions late and post Byzantine art in a broader European cultural context

Niccolò Soggi Nicoletta Baldini,1997 Bibliografia geografica della regione italiana ,1966 Material Christianity Christopher Ocker,Susanna Elm,2020-02-26 This collection of essays offers a series of rigorously focused art historical historical and philosophical studies that examine ways in which materiality has posed and still poses a religious and cultural problem The volume examines the material agency of objects artifacts and environments art ritual pilgrimage food and philosophy It studies the variable senses of materiality the place of materiality in the formation of modern Western religion and its role in Christianity s dialogue with non Western religions The essays present new interpretations of religious rites and outlooks through the focus on their material components They also suggest how material engagement theory a new movement in cultural anthropology and archeology may shed light on the cultural history of Christianity in medieval and early modern Europe and the Americas It thus fills an important lacuna in the study of western religion by highlighting the longue dur e from the Middle Ages to the Modern Period of a current dilemma namely the divide between materialistic and what might broadly be called hermeneutical or cultural critical approaches to religion and human subjectivity
