Terry Brown, 2016-09-22 Biochemistry is a major new textbook designed and created specifically for briefer courses in the
subject Written by Prof Terry Brown of the University of Manchester author of Genomes and Gene Cloning the book provides
the necessary detail and rigour expected for these courses but without the extraneous material found in the larger textbooks
With an increasing number of students taking a short course in biochemistry there is a growing need for a book that covers
the subject concisely and succinctly Biochemistry has been designed from the outset for these shorter courses it is not a cut
down version of one of the larger books that dominate the market Although it is shorter there is no compromise in content
style and coverage The book is attractively designed in full colour throughout with all the pedagogical features expected in a
major textbook It covers what students should be expected to know and is written in the clear and accurate writing style for
which Terry Brown is widely lauded With its competitive price and resources for adopting lecturers all of the illustrations and
diagrams from the book and answers to the end of chapter questions Biochemistry will become the textbook of choice for any
brief biochemistry course Confirmed Adoptions Biochemistry is already the required text at the following institutions Becker
