**The Psychology of Cybersecurity** Tarnveer Singh, Sarah Y. Zheng, 2025-08-29 This book takes a fresh look at the underappreciated role of human psychology in cybersecurity and information technology management. It discusses the latest insights from practice and scholarly work on the role of cognitive bias and human factors in critical decisions that could affect the lives of many people. Written by an experienced chief information security officer (CISO) and an academic with over two decades of lived experience dealing with cybersecurity risks, this book considers the psychological drivers and pitfalls of the four key personas in cybersecurity: from hackers and defenders to targeted individuals and organisational leaders. It bridges state-of-the-art research findings with real-world examples and case studies to show how understanding the psychological factors in cybersecurity can help people protect themselves and their organisations better. Full of advice on security best practices that consider the human element of cybersecurity, this book will be of great interest to professionals and managers in the cybersecurity domain, information technology, and governance and risk management. It will also be relevant to students and those aspiring to grow in this field. *Handbook of Media and Communication Governance* Manuel Puppis, Robin Mansell, Hilde Van den Bulck, 2024-07-05 This state-of-the-art Handbook provides unique insights into the governance practices and institutions shaping digitalized public spheres. Focusing on the power relations involved, it presents diverse approaches to key debates in media and communication governance, showcasing groundbreaking advances in the field. This title contains one or more Open Access chapters. **Collecting the Past Investing in the Future** Bobby Rakhit, Your essential guide to uncovering hidden treasures in your attic and transforming forgotten relics into serious financial assets. If you're a collector, a wealth advisor, or a curious investor, pay attention. In this book, we are exploring how passion and profit are converging in one of the most exciting financial frontiers of our time: memorabilia. What was once seen as nostalgic indulgence is now gaining serious recognition, even from the CFA Institute, the gold standard of financial thinking, which now considers collectibles a valid alternative asset class. This is a big moment. We're entering a space where vintage sports cards, pop culture relics, and historical artifacts aren't just being preserved; they're being traded, invested in, and appraised just like fine art or private equity. With the right knowledge and approach, this market offers real returns, diversification, and access to a completely different kind of value. Bobby Rakhit, a visionary in alternative investing and founder of Rakhit Capital, shares the kind of insights you'd normally hear behind closed doors, from asset strategy to spotting blue-chip collectibles before they make headlines. This is your playbook for entering the memorabilia market with clarity, strategy, and confidence. *Data Processor*, 1981 **The Deal**, 2005-07-11 **Automobile Topics**, 1904 *Timely Topics* Henry Romaine Pattengill, 1901 **Ward's Automobile Topics**, 1902 *Accountant Student and Accountants' Journal*, 1891 **Aviation Week, Including Space Technology**, 1930 Includes a mid-December issue called Buyer guide edition *Semi-annual Digest of Co-operative Agricultural Extension Workers' Activities*, 1919 **Congressional Record** United States.
